Description:

The EasiLift Dynamic Height adjustable portable TV cart for Interactive display panel allows users to raise and lower large displays with only a light effort to varied vertical positions.

With a vertical movement range of 500mm the Easilift is the perfect stand for schools using interactive displays where small children need to reach the interactive panel. (65" at 'lowest point' has 120cm from floor to top of screen, as 'highers point' the top of the 65" is 170cm from floor)

The portable design lets you wheel your display from room to room and lockable wheels secures the stand in fixed position. Faster and easier than traditional electric mounts with no power required for operation of this stand.
