

28TH NEIGHBORS HELPING NEIGHBORS DAY

Thank you everyone for all your help during our 28th helping Neighbors Day activities on Saturday, April 28, 2018. Another 18 homes and 2 community project were repaired this year because of your support, encouragement, and hands-on home repairs.

In the past 28 years, Christmas in April St. Mary's County, Maryland, Inc. volunteers have repaired over 752 homes; 22 community projects; 38,000 people have shared their time and talents; and have made free home repairs worth more than \$7.7 million to improve the living conditions of the low-income, elderly, and disabled homeowners in St. Mary's County.

Volunteer registration officially begins on January 1st, however, we are always looking for volunteers to serve on our committees and help with various aspects of our program. Volunteer sign-up is on-going, but we ask prospective volunteers to contact us prior to March 15th, since it takes a lot of logistical planning to prepare for each one of our repair days
