To Whom It May Concern :

I have employed Jim Gundelach as a business consultant for four months. In those few short months I have become a millionaire, been elected mayor of my town, and received propositions by two-thirds of the Miss America finalists. So Jim, how can we improve next month?

Seriously, my dental practice has improved since I hired Jim. He knows what he is doing and is good at making the changes painless. Despite attending many seminars and reading lots of journals, I never could understand how to make my practice grow. So far with Jim, I still don't understand why we're doing better, but I can't argue with success. If you're looking for a business consultant, Jim would be an excellent choice.

Sincerely,

Elliott Halpern, DDS
