

SELECTED PROJECTS

The projects below have been selected for their illustration of Heidrun Hoppe Associates' many facilities designed for nonprofit agencies that provide services for children, teens, seniors and sheltered care of all types. We are very well versed in all the regulations and special requirements of these types of facilities, integrating the buildings into their communities, providing full accessibility and working with very strict budgets.

Feasibility studies, site analysis, additions, new buildings, facility enhancements, playground design and furniture design are represented.
