This policy is aimed at all the activities, processes, jobs and working equipment for the maintenance and continuous improvement of healthy and safe working environment for all employees of the company under the following principles:

- 1.** Continuously improve working conditions by minimizing risks to staff and other stakeholders who might be at risk for health and safety related activities, processes, products and services of the organization.
- 2.** Commitment to compliance with legal and other (voluntarily accepted) requirements in terms of health and safety at work related to the activities, processes, jobs, work equipment and services of the organization.
- 3.** Prevention and reduction of possible diseases, injuries and damage associated with the occurrence of accidents and emergencies, by maintaining a high level of readiness to respond to disasters, emergencies and catastrophes.
- 4.** Monitor and measure the key characteristics of the processes and activities related to ensuring healthy and safe working conditions and take measures for their compliance with laws and regulations.
- 5.** Providing the necessary training and strengthening the personal responsibility of individuals involved in the provision of health and safety at work.
- 6.** Active cooperation with the authorized organizations to control occupational health and safety at work and all stakeholders in solving problems related to the provision of these conditions.

QUALITY

Providing products with consistently high quality is the key to long-term development of the company. Therefore, the quality of work is wide commitment METRON, which determines the liability of each of our employees.

For each of our products we offer a five year warranty. Designed in accordance with European standards of quality and safety, our furniture is made of carefully selected components from our leading manufacturers from Europe. The boards we use in production are accompanied by certificates E1 and EN 13986 for the content of formaldehyde.

ECOLOGY

METRON aims continuous improvement of environmental protection , maintenance and development of the implemented integrated management system in accordance with the requirements of ISO 14001 : 2015 by applying the relevant legislative and regulatory requirements. This policy is aimed at the development of all activities and processes in an environmentally acceptable manner in compliance with the Management System requirements.

Everyone in our Company has a personal responsibility to protect the environment. All suppliers, subcontractors and customers of our organization are called upon to comply with the declared policy commitments regarding the management of the environment.

WHAT WE OFFER

INTERNATIONAL EXPERINECE, PERSONAL PASSION AND LOVE FOR THE DETAILS

Founded in 1994, METRON specializes in the design, development, manufacture and installation of kitchen furniture, public buildings furniture and hotel furniture. In recent years METRON has expanded its product range and is already involved in the furnishing of offices, retail chains of different types, as well as furnishing apartamentni complexes.

In the field of commercial furniture our products include: sample displays, systems, equipment, catwalks. For complete furnishing of apartment complexes, we offer a large selection of high quality products: receptions, tiling, beds, wardrobes, tables, kitchen cabinets, kitchen equipment, and a wide range of accessories.

OUR PRODUCTS

KITCHEN FURNITURE

METRON creates the world according to customers' taste, always stylish and with high quality. We have a very strong focus on product development, therefore we continuously present new products and solutions that respond to consumer needs.

The kitchen island that usually serves as a barrier between the kitchen workspace and the rest of the open floor plan coordinates with the cabinetry in a really elegant way.

The combination of black colour with natural wood for the cabinet doors and white artificial stone for the countertop gives very fancy and stylish view.

The elegant handles from stainless steel gives a very sleek vision to the kitchen. The opportunity of having tall column cabinets gives a huge space for storage.

METRON brings the needed inspiration to visualise your dream kitchen of any difficulty and scale. Our company offers numerous options with which you can adapt the surface finish of your kitchen to meet your individual requirements.

Hettich Sensys, the hinge system with integrated soft-closing mechanism for even more convenience in closing hinged doors. Self-closing from a uniquely wide angle, Sensys takes care of closing doors almost by itself. Innovative, easy, gentle, quiet.

From partial extension runner to the full extension runner with Silent System and Push to open — the versatile InnoTech drawer system makes it very easy to fulfil customer's specific wishes and needs.

Drawers with full-extension runners and soft closing are perfect solution for storing pot and pans. Different type of organizers can be used to make the access even more comfortable. Drawers with a loading capacity up to 50 kg.

Incredible customising options in terms design and function, easy to implement on the basis of a platform.

For elegant look and easy use we apply Gola ProfileSystem that makes it possible to dismiss handles. It's also available in different colors. Completed with artificial countertop and led lighting it gives discreet style.

Due to the latest innovative Blum mechanisms the wall cabinets can be with more comfortable opening and effortless closing. AVENTOS HK opens up and out of the user's way so it can be left open during cooking.

Inspiring purity and beauty LED lighting provides incredible energy efficiency, without sacrificing light quality. LED lighting is highly efficient, long lasting environmentally friendly and inherently controllable. The color can appear more cool or warm.

Putting in together natural materials and modern matte finishes makes a cozy home. The lack of the standard handles transfer the focus on the details like the open shelves.

The truly "magic" solution for your corner. Magic-Corner is capable of housing two complete cabinet units next to each other in only one corner cabinet.

With one movement, the intelligent sliding technology simultaneously draws the front and the roll-out rack into the user's view and access area. Closing almost takes place by itself, as well.

The AVENTOS lift system programme brings perfect, silent and effortless motion to the wall cabinet area. Even wide flaps will open easily and close silently with BLUMOTION, a unique system for smooth and silent closing. The variable stop ensures that AVENTOS flaps always remain in the desired position.

The individually suspended and adjustable shelves make a flexible space miracle. Its design allows tall cabinets to be fully utilized in width and height, creating space, order and overview. Thanks to its railing, everything remains transparent, even at the top levels; always visible – even from the sides.

OUR PRODUCTS

HOME & HOTEL FURNITURE

Combining natural wood with white lacquer surfaces and using straight lines behind the reception make it the centerpiece of the space.

Different geometric shapes used to create the background of the reception and lightened with led illumination gives strength and flexibility to the interior.

The simplicity of the shapes and the combination of the lacquer material with matte finish makes the clothes to stand out on the background. The led illumination bring more light to the space.

The drawers are perfect solution for storing jewelry and different types of accessories, the open shelves offer ideal storage for boxes, and the inclined shelves are comfortable way to store all the shoes.

SlideLine M provides the capability of combining open and closed sections in furniture. The one-track, close fitting sliding door system functions as a practical design element on living-room wall units and shelf systems. Just one profile can be used for running two doors fitted one above the other.

Natural veneer creates even more coziness and warmth in every interior. Combined with black metal and white lacquer gives a different modern look.

Functional use of the space with high wardrobes to the ceiling and high wall cabinets with built-in lighting on both sides of the bed, giving muted light for reading.

The irregular geometric shapes created behind the bed are gently transferred to the wardrobe doors. The mirrors on both sides of the bed enhance the effect and give space and lightness to the space.
