KIWANIS MEETING OF July 10th, 2017

Anne led the meeting, the prayer, and the songs which consisted of Happy Birthday, The Star Spangled Banner, and Good Old Summer Time. We had nine members in attendance four of whom had birthdays in July. Vince brought a guest. Michelle.

Rick Satterlee was in the news for being elected to the Board of Directors of Ayers Associates. Congratulations Rick! A long time member, Dick Grashorn recently passed away. Ben attended the wake and was told by his daughter how Dick enjoyed being a Kiwanis member for more than 50 years. Happy dollars were provided by both Rick and Anne. Lunch consisted of Chicken Wraps, chips, fruit salad, and cookies.

Bill Buerschinger was our speaker this week. Bill brought in an electronic device that he built. The device is basically a controller similar to something everyone has in every electronic device that dominates every day life. This includes something as simple as your stove to everyone's cell phone. The device Bill built had a programmed message on its screen. The device also showed current temperature and humidity, which would change from a current reading in the room to ones own temperature if held. The controller Bill built can be programmed to preform many other function. Bill wrote all the programs himself.

The parts for the controller are reasonably priced and would make an ideal gift for either a girl or boy who had an interest in electronics or computer programming. Bills goal is to rebuild a 1970's pin ball machine and program it himself using the controllers he will build.. Thanks Bill for an interesting program.
