

The Stickman No. 27 Puzzle Box

(Pirate's Wallet)

The Stickman Pirate's Wallet Puzzlebox is crafted from weathered ambrosia maple. It has functioning wooden hinges made of yellowheart, with redheart latch straps.

The lock to this puzzle "is the key". Not only does this box's hefty wooden padlock stand as a puzzle all on its own, but once solved, its disassembled mechanical parts must be used as tools and keys to open the remainder of this chest.

This puzzle is of moderate difficulty to solve and requires a minimum of 33 steps to reach its two hidden chambers.

Note: (Due to internal mechanics, this puzzle must only be shipped with the padlock facing down.)

Special Care Should Be Given to Never Force/Press the Latches of This Puzzle Back Into Place. Wooden Straps Should Only Be Relocked in the Same Way They Were Opened.
