IV. New Business

**A. Dryden Drain Project**

Erik Schwanz the Engineer from BMJ Engineers & Surveyors who is working with Joe Suma at the Lapeer County Drain Office on the Dryden Drain Project gave overview of proposed project.

He explained the underground takes that could possibly located at Cardinal field to help the system in heavy flooding.

The proposed concepts will help with the flooding on Cardinal Field, North Street, as well as the flooding along house that back up to cardinal field.

Councilman Roszczewski, expressed concern with the type of material being used and the cost of the project. He felt there could be a cheaper way possibly with drain tiles and to choose a different route that doesn't go through the road.

Councilman Jones, expressed concern about the cost and the special assessment that each homeowner will have to pay and it will have to be paid off prior to selling a house if they ever choose too.

Justin Evans wanted to know where the 3 different options are. He stated that at last meeting there was going to be options.

Erik though there will be roughly 1300 parcels that will be special assessed for the project and the term of the loan is 20 to 30 years but that is not for sure yet. The Details are being worked on now.

Erik presented a resolution for right-a-ways.

Roszczewski felt it should be held onto until a later date before passing.
