

Our branding specialists create a custom and professional looking product matching your brand colors as close as possible. Colorado Hockey Institute logos are replaced with your logo. Your team name appears within available product page headings.

Applicable page footers will include "powered by www.ColoradoHockeyInstitute.com".

Your product order will then be emailed to you with your custom colors and logo.

Product Version Restrictions

Custom Branding can be performed on Stats Tracker v5.3.13, Attendance Tracker v4.4.3, Attendance Collector v1.0 or later versions.

When Can Customer Branding Be Performed

Custom Branding can be performed during processing of a new order, or on previously purchased compatible versions. If you are mid-season and determine you want branding, simply send us your most recent workbooks and we will apply the branding and return the workbook to you.
