

What's Different About The Novus Cloud?

7 Key Points Combine To Make Other Cloud Solutions Obsolete

Always-on Reliability

- Guaranteed 99.9% uptime
- 24/7 support
- 2 hour response time
- One of the only solutions utilizing the proven, flexible, next-generation of Nimble storage

Data-Driven Model

- Unique data-centric approach
- Stack built from the data up to the application layer
- Unmatched data accessibility

Backed up by Expert Services

- Over five decades of executive level experience in cloud and storage
- Our relationships and long history ensure you of the best pricing and provisioning

Low Cost and Low Overhead

- You don't buy storage so you are not locked into hardware or contracts
- Up to half the cost of other cloud solutions

5

More Secure Than Other Cloud Solutions

- Fortress-level security
- Multiple-level encryption

Andromeda3

4

No Latency Issues

- Our NPAC solution speeds data and app provisioning
- Distance issues between data center and users eliminated

3

Flexible Solutions

- Provider-agnostic
- Our focus is on the customer vs. technology providers
