HOW WORLD WAR 3 IS PLAYING-OUT

The use of A.I Artificial Intelligence in the Battlefield

The purpose of this study will be to consider how the next World War will be fought. Aside from the Conventional Array of Weapons and Nuclear Bombs, the Age of A.I., Artificial Intelligence and Remote Warfare, as in Drones is what and how the Tactics on the Human Battlefields will be characterized by. With the Russia-Ukraine War, the Israel-HAMAS and Hezbollah Wars, or the Iran Ballistic Missile Attacks against Israel, the use of Drones or UAVs (Unmanned Aerial Vehicles) have been Spectacular and Deadly. In one sense, it has been about 'Killing Smarter, not Harder'.

You have Iran and Hezbollah sending both Missiles and Drones to Russia and used against Ukraine and Israel. Then you have Drone Surveillance from the USA as well as those from Turkey. Since the advent of the Drone, such Inventions have found their way in how it can be incorporated into Human Warfare and Battlefield. Due in part because there are less Men willing or able to fight on the various Battlefields, Drones have been a quick and Cheap Alternative that has changed the Tactics of War.

The Ukraine and Gaza have been the Testing Grounds. For example, now all the Russian and Israeli Tanks have needed to put over their Turrets a Shield to prevent Drone Bombardments. This Accommodation was learned from the Russia-Ukraine War in how the Ukrainians used Cheap Drones to drop Ordinances to destroy Russian Tanks. Drones are also less likely to be detected on Radar due to their size. In many cases, Drones have infiltrated Israel and hit Urban Centers. For example, the Houthis of Yemen sent Drones and caused Damage as they crashed into Buildings in Tel Aviv.

Drones have proved to be valuable in assessing the Terrain, in Real Time, both in the Open Battlefield as well as in close Urban Warfare. Perhaps 1 of the most famous Drone Footages is that of the Killing of Sinwar in Gaza. A Drone was sent to the 2nd Floor of the Building where Sinwar was hiding-out. The Israeli IDF Drone captured the Last Moments of Sinwar as the Drone was able to fly through the Rubble much faster and safer than a Human that could have also been a Casualty. So, Drones and the Latest Weapons are being tested in Live Combat for the 1st Time.

And part of this New Drone Warfare is how Espionage and Sabotage Efforts are more critical now. This is the Need. In the case of Israel it is because it does not have a large Military Personal to replenish and replace as, say Russia. It is rather Amazing and Astonishing how this tiny Nation of Israel is making the entire Nations on Earth go Mad with capturing the Promised Land and dividing it, Jerusalem and the Temple Mount. These 3 Factors are what World War 3 really is or will be all about.

End of the American Century

And in terms of Biblical Prophecy, it is realized how Numbers, Places and Dates play a huge Role in discerning the Timeline of the 'End of Days', etc. It is just astonishing how the entire Planet is seeing, in real-time, the unfolding of Biblical Prophecy. It is leaping-out of the Pages of the Bible, literally it would seem. In part, it is thanks to the Internet. Truly, Prophecy is marching forward with accompanying Signs Above and Events Below. Evidence? In the Winter of 2024, Putin declared that the BRICS Nations have essentially become the New World Order.

They are challenging the American Century and seek to replace the U.S. Dollar. In Mid-2024, the Saudis announced that they are now no longer backing the U.S. Dollar with the only Real Asset, Oil that they have. There is no more Petro-Dollar. And? It means that other Nations that either buy or sell Oil are no longer obligated to convert their Currency into Dollars 1st. This has assured that the American Empire is to fall, sooner, rather than later. Now Prophetically, notice that BRICS has expanded to 10 Nations. Many End Times Students of Prophecy see this as a Foreshadowing of the 10 'Kings' or Regions that will Rule the World during a Post-USA Empire.

What that means, is that the U.S. Dollar and its Economy, now based on over 33 Trillion Dollars in Debt is surely to collapse. The World is witnessing the Sunset of the American Empire, sadly despite the '2nd Coming of Trump'. And like Rome and Babylon, the USA has been captured and destroyed from within. Will this be how the USA will fall? Will it be from the 5th Column and from those that have sold her out by so many Traitors? But one can argue that it is also part of its inevitable National Judgment that is overdue for the USA, the World and Israel. Will this next Chapter in Human History, now commencing, lead to the Return of Jesus? Is it that close?

What is for sure is how the next World Wars will be fought. And those Wars will be fought, increasingly with all types of Drones. However, the New Technologies that have emerged, due to A.I., will not replace the Conventional Types of Weaponry altogether. But consider that at this Place and Time, a New Paradigm Shift in Military Warfare has occurred thanks to A.I. and Drones. And those that control and master A.I. and Drone Warfare, incorporated into the Battlefield will be the Masters of Earth's Destiny for the next 1000 Years. Consider how when the Germans overran Poland at the start of World War 2, the Polish Army came out charging in their Calvary. So, to an extent, World War 3 is being fought with the Vestiges of World War 2. But also with New Technology

This is what Hitler's Blitzkrieg was all about. Consider the following News Pieces and War 'Chessboard' Pieces being moved around the World. In the Winter of 2024, the United States Air Force B-52 Strategic Bombers were sent to the Middle East due to the escalation of the Israel-HAMAS and Hezbollah War in Lebanon. They came from the Minot Base. And? That is the 5th Bomb Wing that is equipped to carry Nuclear Weapons. It was reported that as soon as the Bombers landed, they went through High Security Protocols, as in Nuclear Security Protocols. That could have only meant that the Bombers had nuclear weapons onboard. In one's Estimation, they are being used more so for the Psychological Effect.

Drone Diplomacy

It is because in the Age of A.I., Nuclear Weapons or Bombs can be launched with ICBMs or other Modern Bombers like with the B-2 Spirit Bomber and the F-117. So, consider that a Nuclear Detonation going-off in the Middle East has dramatically increased in likelihood. Sure, it is 'Saber-Rattling' on the part of the USA, in defense and support of Israel. But it was a Military Message not only to Israel, but to Iran, Russia and China. What is perhaps going to be Apocalyptic is if Israel uses its Nuclear Weapons.

If somehow the Iranians or the Syrians do not back-down, then Israel will have no other choice but to bomb the various Nuclear Facilities, especially in the Ancient Elam Region. Israel already did. In October of 2024 when Israel sent its Air Force to bomb Iran, it destroyed the Parchin Nuclear Research Complex. But if Israel hits a Live Iranian Nuclear Plant, it will cause a Nuclear Catastrophe many times over from what occurred in Chernobyl. Israel disabled Iran's entire Air Defense in its Bombing Raid. It was amazing in how strategic and precise it was. It was like the Israel Air Strikes that took out the Nuclear Reactors in Iraq and then in Syria. But it was the Biden Administration that restrained Netanyahu from taking-out the Nuclear Sites. Trump may not restrain.

But realize that Iran has openly attacked another Nation, i.e., Israel with barrages of Ballistic Missiles. And where was the U.N. Outcry when Iran did this to Israel? It is always passing Resolutions condemning Israel for neutralizing Military Hostile Targets in Lebanon, Syria and Yemen that seek its Destruction, etc. Now, how World War 3 and Drones come into play is that if Iran does launch another Ballistic Missile Attack against Israel, the USA will come to Israel's defense, but so will Russia on the Side of Iran. This is how World War 1 started. There is a Dichotomy of the Super-Powers at play.

In the West, there is the labeling used as the 'Axis of Evil'. It comprises Iran, the Houthis and Hezbollah. But in the East, there exists a Counter 'Axis of Evil' that comprises the USA, Israel and the E.U., to an extent. Consider that the USA does still have a Military Base in Iraq and has sized part of Syria even. And it has been Iran, along with an Iraq Pro-Iran Front that have coordinated Drone Attacks on U.S. Military Bases. Very little is allowed to be reported about this to the American Public. But what has been done is that the U.S. Military has practiced simulating Drone-to-Drone Warfare. And here is what the next World War will look like. It will be about Swarms of Drones battling-it-out in the Skies over Military Assists, in the Open Field or in Urban Cities, etc.

One such Drone Program that has been announced by the U.S. Secretary of Defense, is called the Replicator Program. Now what has not been communicated to the American Public is that as the Drones are said to be designed to combat the Iranians, the Russians and Chinese, these same Drones can be and surely will be also used domestically in the USA against its Citizens. They are already being used by Police but eventually will be used against whomever the Pentagon deems a 'Domestic Terrorist' or 'Threat', etc. For example, during the COVID Plandemic, the Communist Chinese used Drones to ensure People complied with the Forced Lock-Downs of entire Neighborhoods. In the Initial Stage of Drone Warfare, the Tactics are very crude. It is

Drone World War

like during World War 1 when Pilots just handled a Bomb with their Hands and dropped it over Enemy Troops. That was as sophisticated as it could get. But the Psychosocial Terror Effect was another Outcome. It was like the Nazi Buzz Bombs that no one knew where they would land over London during World War 2. What the Ukrainians are now utilizing the Drones for is Kamikaze Drone Attacks against Russian Military Assets.

In this way, entire Tanks and Naval Ships have been destroyed or decommissioned, effectively and cheaply. The only effective way to match Drone Warfare is to beef-up conventional Electronic Jamming Technology and on-the-ground Anti-Aircraft Fire Power. Drones now need to be deployed around Military Basis or like with Navy Carrier Groups. Following the HAMAS October 7, 2023 Attack on Israel, many Nations having the top Militaries of the World took note of how HAMAS used Drones against Israel.

However, one is convinced that the Israeli Military, being the Best in Espionage and Counter Surveillance allowed the Event to occur. It was a Stand-Down Event, much like 9-11 was with the USA. And the same People were behind both. Sure, it is a 'Conspiracy', but many IDF Soldiers have come forward to Whistle-Blow the whole Situation for what it was and is being used for, World War 3. Drones are very effective. Most are made of Plastic that makes it harder to be picked-up by Radar Signatures.

There are a variety of Drone Sizes and Specifications. There are Drones that are so small that they can become as deadly as a Bullet. Through A.I. Control, an entire Swarm of Drones can overwhelm any Military Element in the Battlefield or in a Civilian Domain, etc. For example, Hezbollah sent MIRSAD-1 Drones to attack the Golani Brigade Base north of Haifa. 1 of the Drones landed in the IDF Mess Hall and 4 Soldiers died initially. But then it was reported that 17 IDF Soldiers had died as a result of the Drone Attack. There were many Serious Casualties. It came out of nowhere. Exactly.

Yet, the Mighty IDF Iron Dome Shield failed to detect the Hezbollah Drones. In part, the Drone Success was due to how Hezbollah also launched Missiles to overwhelm the Iron Dome. And again, consider the Cost-Benefit Analysis. A simple Drone costs just over \$20,000 USD. In comparison, the Israeli Iron Dome Battery costs \$50 Million USD to make, let alone to operate. It was also reported that Hezbollah Drones also struck an IDF Gathering Point in Binyamnina, South of Haifa, causing more than 25 Casualties.

The Israeli Government described the Drone Attack as a 'Mass Casualty Event', etc. What makes a Drone Attack more Psychological is that there were no Air Raid Alerts given. Israelis had no chance to rush into their Bomb Shelters. Why were these Hezbollah Drones not detected? A supposed 'Leak' insinuated that the Drones were manufactured by Russia. Perhaps. But in any case, that Arrack is an example of how the Development and Improvement of Drone Warfare is evolving by the Battle.

Drone Defense

It is believed that the latest Drones use Fiber Optics and not Radio Signals to control it. So, how to counter such Drone Warfare that is ever-evolving? Well, consider that the U.S. Army has been reported to have shot down a number of Hostile Drones in the Middle East using Beams. Israel has developed this Technology also. These Types of Laser Weapons are no longer Science Fiction. The Laser and its accompanying Technology for Military Use is what will and can challenge Drone Warfare.

But until that Day comes, the Drones are also being used to Assassinate People. For example, Obama when he was the U.S. President authorized the taking-out of U.S. Citizens in Foreign Soil using Drones. Then during the Trump Years, a Drone was used to take-out Suleimani of Iran, the Head of the al-Quds Revolutionary Guard.

It was Suleimani that had orchestrated the Drone and Missile Attacks against the U.S. Bases in Iraq. Then in late 2024, a Drone was used to try and assassinate Netanyahu in his own Home, etc. As a result, Israel has requested a 4th Terminal High Altitude Area Defense (THAAD) System from the USA to deal with Ballistic Missile and Drone Attacks, etc. Israel might be succeeding in thwarting many Drone Attacks, but it is also learning and adapting, just the same. One Thing is for sure, Drone Warfare is improving and strengthening in its Capabilities and Casualties.
