NOTICE OF CONFIRMATION (NOC)

Acknowledgement of STWEC Membership Requirements

The California Regional Water Quality Control Board Central Valley Region has new Waste Discharge Requirements (WDRs) under General Order R5-2014-0030 (Order) for growers within the Sacramento River Watershed that are Members of a Third Party Group. The new WDRs were adopted on March 12, 2014 for discharges from irrigated lands to protect both surface water and groundwater throughout the Central Valley. In order to obtain the new WDRs regulatory coverage offered by the Third-party Group, Sacramento Valley Water Quality Coalition (SVWQC), as a member of the Sub-watershed Shasta Tehama Watershed Education Coalition (STWEC) this NOC must be understood, signed and returned to STWEC.

I Confirm that:

- I understand that existing Members that had previously enrolled under the Coalition Group Conditional Waiver will be enrolled under General Order R5-2014-0030 upon submittal of this Notice of Confirmation and member dues to STWEC.
- I am aware of and acknowledge the requirements of the newly adopted Irrigated Lands Regulatory Program Waste Discharge Requirements General Order R5-2014-0030.
- I understand that owners and operators of irrigated lands are required to maintain a hard or electronic copy of the Regional Water Quality Control Board’s Irrigated Lands General Order R5-2014-0030 at the farm headquarters and that the owner and operator shall be familiar with the contents.
- As a member of STWEC I understand that my indicated irrigated lands are in compliance with the ILRP regulations as long as I the owner/operator abide by the order requirements.
- I confirm that I have notified the non-Member owner or operator (if applicable) of the General Order R5-2014-0030 requirements and have certification of notice (a responsible non-Member is a landowner whose parcel has been enrolled by an operator-Member under this Order or an operator who farms a parcel that has been enrolled by a landowner/Member). Members must provide certification (i.e. written confirmation) that they have provided written notice to any responsible non-Member parties of the Member’s enrollment under this Order and of the requirements of this Order.
- I understand that regulatory coverage under this Order is automatically terminated, if a Notice of Confirmation (NOC) is not received by the third-party group sub-watershed (STWEC) from the currently enrolled member or if any other requirements of the Order are not met.
- I confirm that I have knowledge of the deliverables and due dates required of the Order, including those below:

Grower Requirements		Relative Date	Approximate Due Date
Farm Evaluations	Low Vulnerability Areas	1-Mar-2018, updated every 5 years thereafter	1-Mar-2018
	High Vulnerability Areas	1-Mar-2018, updated annually thereafter	1-Mar-2018
Nitrogen Management Plan	High Vulnerability Areas	1-Mar-2018 and annually thereafter	1-Mar-2018
	Low Vulnerability Areas	1-Mar-2018 and annually thereafter	1-Mar-2018
NMP Summary Report	High Vulnerability Areas	1-Mar-2018 and annually thereafter	1-Mar-2018
	Low Vulnerability Areas	not required	-
Individual Sediment Plans	High Vulnerability Areas	180 days from Sediment Report approval	15-Dec-2015
	Low Vulnerability Areas	not required	-

I certify that I have read this NOC and that I understand my obligations as a STWEC member.
