 **OBAMACARE'S FATAL  
FLAW: The President's  
namesake legislation  
is taking on his  
personality .....**  
**NAÏVE ARROGANCE,  
MISGUIDED AMBITION,  
and UNLIMITED  
NARCISSISM!**

Stephen L. Bakke  November 26, 2013

*When you allow ideology to drive the development of policy with no attention to reality or practicality, the results are catastrophic. For the President and his supporters, ObamaCare was conceived not as a policy solution for America's growing healthcare challenges but as a symbol of the President's progressive worldview. – WOW! – pro-Obama reporter Ezra Klein of the Washington Post.*

**Obama's distorted philosophy and agenda is imbedded in this legislation  
and will bring its demise!**

Obama provided the philosophical direction and managerial style for this law's development and its execution. And with it being so strongly influenced by our President's aloof and detached attitude regarding the details of any project, **ObamaCare never focused and prioritized the APPROPRIATE goals** of much needed health care reform. **Rather, it was all about control. Control requires management talents and Obama has contempt for the discipline of true management. He has flunked "Management OJT 101"!!!**

**Let's see, what else is Obama known for?**

Obama is also noted for deception, evasiveness, manipulation, spinning facts, and passing blame. He sees himself as all knowing and far superior to others. Saul Alinsky taught him disdain for the capabilities of common citizens.

And to that you can add divisive, controlling, foolish, confusing, ignorant of unintended consequences, a fictional mystery, incomprehensible, untrustworthy, incompetent, full of hubris, avoids responsibility, relishes complexity as a camouflage, and intellectually sloppy!

Because of these characteristics, ObamaCare has been destined for failure from the time it was a "glimmer" in Barack's eye! Its fatal flaw has its roots in the philosophical vision and style of its narcissistic leader ..... our President. **It's a manifestation of the man himself: naïve arrogance, misguided ambition, ideologically driven – narcissism throughout!**

In his 1974 Nobel Prize acceptance speech "The Pretense of Knowledge," Hayek warned that:

*The recognition of the ..... limits to his knowledge ought indeed to teach the student of society a lesson of humility which should guard him against becoming an accomplice in **men's fatal striving to control society** - a striving which makes him not only a tyrant over his fellows, but which may well make him the destroyer of a civilization which no brain has designed but which has grown from the free efforts of millions of individuals.*

---

*So SB, I think you are saying that Obama has no concept of humans' reaction to incentives, nor to the value of imposing accountability - in other words he doesn't know how to manage! Furthermore, you say that the failure of ObamaCare will come from the fact that his personality - e.g. naiveté, ambition, narcissism - has "tainted" the legislation! What makes you so sure? HMMMM? Have you forgotten that report you showed me a few weeks ago that said he knew what he was doing? - Stefano Bachovich - obscure curmudgeon and wise political pundit - a prolific purveyor of opinions on just about everything - my primary "go to guy."*

OK Stefano, perhaps you have a point. I did imply that his policy results were premeditated. But perhaps **NOT** - I'm not always right with my first time conclusion!

This new possibility inspired an internet search for these thought provoking lyrics:

*Everybody Plays The Fool* - from 1972, by The Main Ingredient

(Watch and listen on youtube.com by clicking [HERE](#) - you can skip the brief commercial).

*Everybody plays the fool, sometime.*

*There's no exception to the rule.*

*Listen, baby, it may be factual, may be cruel.*

*I ain't lyin', everybody plays the fool!*

---

*The actual name of the legislation is not ObamaCare, but the Affordable Care Act, named in the same playful manner as how the bald stogie is called 'Curly.' Not to imply that ObamaCare is as capable or helpful as any of the three stogies. - Humorist Frank J. Fleming*
