Book manuscript	The global financial safety net: why politics leaves it fragmented, inequitable, and unsustainable
Prior employment	SSHRC Postdoctoral Fellow , 2020 – 2021 Graduate School of Public and International Affairs, University of Ottawa Department of Government, Harvard University (non-resident)
	Postdoctoral Research Associate , 2018 – 2019 Washington University in St. Louis
	 Courses: The International Political Economy of Finance, Spring 2019 Enrolment: 40 Median evaluation: 4.25 / 5 This course introduced students to the politics of the international monetary system. The first phase of the course covered the basic tenets of finance and the institutions that govern financial markets. The second phase reviewed the major theoretical approaches to international monetary relations. The final phase looked at how international governance arrangements have evolved since the early 20th century.
	 Politics, Risk, and Banking Crises, Spring 2019 Enrolment: 6 Median evaluation: 5 / 5 This course introduced students to the politics of banking and bank risk in particular. The first phase of the course covered the basic tenets of financial risk and how private and public institutions manage it. The second phase covered the governance of specific types of bank risk, including credit risk, liquidity risk, foreign exchange risk, settlement risk, and systemic risk. The final section covered the politics of major banking crisis episodes, including the crises in Latin America and Eastern Europe in the 1980s, the East Asian crisis of the 1990s, and the global financial crisis.
	 Lecturer, 2017 – 2018 Carleton University Courses: Introduction to Research Methods in Political Science, 2018 Enrolment: 35 Median evaluation: 5 / 5 Introduction to Research Methods in Political Science, 2017 Enrolment: 140 Median evaluation: 5 / 5 This course introduced the basic tenets of empirical research design in political science. The first half of the course introduced students to the fundamental building blocks of the scientific approach to political science research. The sec-

building blocks of the scientific approach to political science research. The second half surveyed common research designs in relation to each of the building blocks established in the first half of the course. One lecture was also devoted to research ethics.
