TCS TEST DEPUTY – FAIRFAX, VIRGINIA

WEBCO HR, Inc. is seeking a TCS Test Deputy for one of our clients located in Fairfax, Virginia

SUMMARY:

Department of Defense Secret security clearance is required at time of hire. Applicants selected will be subject to a U.S. Government security investigation and must meet eligibility requirements for access to classified information. Due to the nature of work performed within our facilities, U.S. citizenship is required.

RESPONSIBILITIES:

Keeping people safe worldwide is what we do. Developing mission-critical systems is how we do it. You'll be part of the team that helps heroes make a true impact. The work we do is important. The challenges we face are career-defining. The opportunity we can offer is one-of-a-kind.

We are ready to hire a **Test Deputy Lead** with hands on experience using the Navy's AN/BYG-1 Tactical Control System(TCS) to help build the Submarine Combat System delivered to the United States Navy (USN) and Royal Australian Navy(RAN) Submarine fleet. Our close-knit team is passionate about delivering the best product to the Navy to help protect our country. Our team works closely with the Submarine community to develop solutions that allow the Navy to carry out high-stakes national security missions.

****US Navy Submarine Fire Control Technician (FT) experience is REQUIRED.****

What you'll be doing:

- Supporting the test lead by coordinating across the BYG-1 enterprise- with our government and contractor partners- to deliver a system that meets the Navy's need date with the highest possible quality.
- Working in an Agile environment to resolve issues found in the system and address the best path forward to resolution.
- Coordinating with other leads to most effectively deploy team resources across the baselines.
- Planning staffing and budget with the program management team.
- Identifying automated testing opportunities and determining when automated test can be deployed and when we must use human-in-the-loop

REQUIREMENTS:

- Strong US Navy Submarine Fire Control Technician experience.
- Formal testing experience on a DoD production delivery environment.
- Leadership, planning, and delegation skills to drive large assignments to completion.
- Experience working proactively with local and remote test team members.
- Solid verbal and written communications skills using Microsoft Office products.
- Testing support in an Agile development environment.
- Ability to travel .
- Leadership skills.
- Strong testing skills.
- Ability to sell your concepts and ideas in order to lead teams to embrace process improvements.
- Ability to quickly grasp and apply new information.
- Effectively handle complex assignments.
- Effectively work with Integrated Product Teams (IPTs) including SW, INT, SE, CM, PM, DM, and QA.

COMPENSATION:

- Base Salary
- Full Benefits

THE COMPANY:

Our client engineers a diverse portfolio of high technology solutions, products and services that enable customers to successfully execute missions across all domains of operation. With a global team of 12,000+ top professionals, we partner with the best in industry to expand the bounds of innovation in the defense and scientific arenas. Given the nature of our work and who we are, we value trust, honesty, alignment, and transparency. They offer highly competitive benefits and pride ourselves in being a great place to work with a shared sense of purpose. You will also enjoy a flexible work environment where contributions are recognized and rewarded. If who we are and what they do resonates with you, we invite you to join our high-performance team!
