

## RALPH HUDSON SCHOLARSHIP FUND

The SCTA is pleased to pass along information on a scholarship fund bearing Ralph Hudson's name. The fund has been set up by David Hudson, Ralph's son.

It has been established at Pasadena City College for the skilled trades. Ralph had a lifelong passion for building, and felt younger generations were not being given the opportunity to learn and develop trade skills. This fund will help support a new generation of talented builders and trades people. Many of these students go in to welding & fab areas which can lead them to our sport. So we might just be helping our future! Listed below is the link to the fund. Thank you!.....Pat
