

## Relief Services (RS)

“Share & Care”

Esther Community Ministries understands that there are times in our lives that families may have trouble meeting their economic needs. They may need supplemental food, have financial difficulty buying clothing and may even need furniture for their residential homes. The purpose of the ECM Relief Service program is to provide supplemental help and resource information to community residents. ECM wants to provide relief options throughout the year to lessen the economic impact on your family.

Part of this program is to make available to the community residents financial education and training on how you can bring economic growth to your family. The ECM Resource Center has resource information about organizations and churches that can also help to provide supplemental assistance. Come to the ECM Resource Center to get the appropriate resource forms to help you and your family.
