ARE YOU DREAMING YET?

Can you allow yourself to dream with all that is happening in in our country? Where is the certainty today? We still live in a country of free enterprise where your dreams are realities if you want to believe them and work for them. I am excited to tell you that our company is expanding. Some days I think how can I help everyone that needs our help. Now with the health of our nation becoming such a huge issue, we have even a bigger job. But we do it one at a time. It is fun to see how we are making a difference in so many peoples lives whether it is financially or physically. Our team is expanding and we need your help to educate people more now than in the any time in my 35 years in Shaklee. If you are looking for extra money to help pay for some bills or your products, if you are looking for an extra \$1000/month or if you are looking to have the security of a Plan B just incase you are one of those who all of a sudden finds yourself without a job. I am seeing there is no security when you are working for someone else. Now may be the time to look into what the amazing company can offer. With the cash, cars and trips incentives, but most exciting is that YOU can make a difference in other peoples lives. Our CEO & owner is an amazingly intelligent and caring man. If you want to be involved with a company who will be the largest force for social change in the world call us for more info. I am currently looking for any connections you may have with people in India. We are opening in India and want to offer as many people as possible a new dream & life. Have a great month. Nina

PRODUCT INFO NIGHT at Nina's on Monday **October 20th @ 6:30pm**—come learn and have fun, free drawings. Get your name in again for each guest you bring. Also receive **10% off** that night for all orders if you attend.

Alopecia 20 yr old With Vivix and Vitalizer

Digestive Upsets— Irritable Bowel Pain

Having IBS has caused many uncomfortable and painful years of my life. I have taken prescription medication for years and have watched my diet. Just after using the Shaklee Optiflora for 1 month, I could physically feel the difference. No more severe stomach cramps or IBS symptoms. At first I thought it was just a coincidence but then the true test came with a few bouts of extremely stressful situations. My IBS was unaffected. I am so pleased with this product!! Anyone experiencing IBS should give this product a try..YOU WILL NOT REGRET IT! Shaklee's Optiflora pre & probiotic system, is not destroyed by stomach acid... it gets to the lower intestine where it really works!

Marla

Added Endurance and Energy!

Performance has been a lifesaver when I run long distances. I either hydrate with it before the race or carry it with me on longer races. I can feel the difference as it hydrates better and more quickly than water so I can push myself farther. When I've used other sports drinks, they feel like they slosh around in my stomach and make me feel nauseous. Performance absorbs so quickly that I feel great when I drink it. My boys who play competitive hockey love Performance before and after practices and games. As a mom, I love the fact that there is nothing artificial in the way of colors or sweeteners and the boys love the added endurance they get when being hydrated properly.

Pregnancy—Dreams come True

Steve and I have been married for 14 years. The first 5 years of our marriage, we spent so much time with

infertility doctors. I was told that I would not be able to have children without invitro. We have 9 year old boy/girl twins because of the invitro. In 2011 we started using Shaklee. I slowly stopped taking all my medication for severe allergies, asthma, and endometriosis. My body started healing itself. We then started the Vitalizer and continued to feel better. My entire family was now off all medication. Then in 2014 my husband and I started the RX for Health (protein, Nutriferon, Vivix, and Vitalizer). We just found out we are 10 weeks pregnant!! My dream has always been to become pregnant all by myself. My twins started their life in a lab and then were put inside me. This baby was created with just my husband and me. We did not have a room of doctors and nurses wishing us well as they implanted the embryos. I am so thankful for Shaklee!!!

Got my Balance Back

Last fall while talking to my Mom on the phone, I told her I was unhappy with my health and amount of time it caused me to miss work. I have suffered for years with being unable to maintain my sense of balance and have been prescribed medication for it. One of the symptoms was that I would feel like the ground was shaking beneath me when I walked. It was as if someone had come up to me and given me a hard shove forcing me to lose my balance. I was also diagnosed some years ago with severe obstructive sleep apnea. Mom suggested that I try the **Shaklee Vitalizer**.

Within a month of using it the balance issue improved dramatically. I was able to cut my medication in half and after another month I was able to get off it altogether, using it only for the occasional episode. I have had 2 doses of my meds in the last 3 months. I also noticed that there was a change in my appetite. Prior to using Vitalizer my appetite did not build gradually; I would go from no appetite at all to famished in a matter of minutes. That made portion control a problem. After a few weeks of using the Vitalizer that changed. I was able to control myself and without trying, I lost 20 lbs and have kept it off for the past 3 months without dieting. I have also experienced an increase in vitality and stamina. I no longer need those two big cups of coffee to get me moving in the morning. Shaklee **Vitalizer** is an amazing product. Ross E

Clarity and Focus

S. Brandon shares the following... "I took the MCAT (Medical College Admission Test) on May 1st. It was also the Saturday before finals week, and I was over whelmed, stressed, and needing to divide my attention among quite a few different things (studying for school, studying for the test, packing to go home). The test was scheduled at 8 a.m. The moment I woke up, I took two of Shaklee's Energy Chews, plus a few of the Stress Relief tablets. Despite it being 6:30 a.m., I felt energized and refreshed, as ready as I could be to take the MCAT. I took along a few extra chews and took one during the scheduled breaks every 70 minutes during the test. I was able to remain focused and alert during the five hour test, even though I was nervous and tired. I was amazed at

how clear my thinking was for the long test. I honestly feel that the chews enabled me to have a clarity and focus that I would have otherwise been lacking. The test was definitely overwhelming, but my energy did not flag, and I felt alert for the entire duration. I'm

satisfied with my test results and recently sent in my applications for medical school. Thanks Shaklee!"

Mindworks is great....it clears the brain fog. Lol I have a big load of stress being a business owner plus trying to keep the families schedule straight with two very active teenage boys. After a couple of days taking Mindworks, I noticed the afternoon brain fog went away and I can concentrate better. After the first 5 days I feel like my mind is relaxed and not running a mile a minute in the middle of the night and have slept better too. I am adding this to my Shaklee regime! LeeAnn Campaniello,

Stomach Issues

I have been using the Stomach Soothing Complex by Shaklee for about 6 months now. I am 36 years old and have always had stomach problems. I had my gall bladder removed when I was

21, but even after that I would have frequent stomach upsets leading to many sleepless nights tossing and turning. Sometimes ginger ale and saltines would ease the upset, but not completely. The first time I took the Stomach Soothing Complex I felt relief in about 20 minutes. I thought that it must have been a fluke. So the next time I felt an upset stomach coming on I took it again and really paid attention to how I felt. My upset stomach calmed in no time at all. I was able to go to sleep no problem and I felt great when I woke up.

I do not usually endorse any product, but I am very happy to have found something that stops the upset in its tracks. I now have my husband using the complex as well, although he calls it "Stomach Smoothers". Oh if only that were true! ~ Katie Robinson, Valparaiso IN

Note: for anyone who has had their gallbladder out, EZ Gest is a Godsend!

VITALIZED IMMUNITY

FINALLY! Getting around to shouting my praise on the VITALIZED IMMUNITY. What a great experience with one of my first products. I hardly ever get a sore throat or cold - maybe one bad one each year, usually brought on by a lot of stress. I woke up with the worst sore throat I had had in a year; the morning AFTER I had received my GOLD kit for joining Shaklee. I had no idea what was in it. I knew about some of the products but not this one. I picked it up, read it again, prepared it, drank it and WOW, within minutes I realized the sore throat was not as bad as when I woke up! Within an hour or so, it was a memory!! I gave 2 samples to my 83 year old friend at church this morning who had told me last night she had a sore throat and cold coming on. She called me this afternoon and could not believe how good she was feeling after one Vitalized Immunity tablet. She said, "I've known about Shaklee for 50 years. It's a good company. Where did you get this?" I told her Tommy and I were new distributors. She's loving knowing "where she can buy that great Basic whatever it's called cleaner"! She's going to be a great customer. I'm sure I'll have lots of stories like this as we make our way into our Shaklee business! Sandy Shields, Forney, TX

Remembering Names

I really thought it wasn't having any noticeable effect on me but kept using it because I know it is protecting my brain. Literally, all my life, I have never been able to remember people's names without many repeat contacts and reminders. Yesterday, I met seven brand new people and heard their names only once except for two who elaborated on their names and nicknames for a moment.

I am thrilled that not only do I remember all the new names, I believe I would also recognize them if I see them again. This is actually a first for me. Seven names remembered when I would not have remembered even

one more than a minute after hearing the name, even when concentrating on it! ~ Sandy A.

My 6 yrs Old Success Story

My 6 year old **son** has been dealing with health issues his whole life and this last winter I was able to keep him off the multiple antibiotics he would always be on EVERY winter. Recently they discovered some retinal degeneration. They referred us back to Children's GI to check his fat soluble nutrient levels, which can be a cause of some eye issues. (We haven't been there in 2 years) when the doc walked in he looked at Michael and said "Wow!! You got big! And you

look GREAT!" We had blood draws done and he didn't even cry. Yesterday I received a call about the lab results and they said that EVERYTHING looked great and I should keep doing what I'm doing!! Even his vitamin A levels, which were checked in 2013 and were at 15 (norm is somewhere between 20-43) are now at 31!! THANK YOU SHAKLEE!!! Heather R.

ps. used to go to Childrens 1 time every month during the winter.

Product Highlight ~ CorEnergy

Cordyceps mushroom extract, Panax Ginseng-traditionally used to revitalize and replenish vital energy, Green Tea extract-the richest source of antioxidant nutrients. Gluten Free. Kosher.

Nutrition Alert: fatigue, poor endurance, stress, foggy thinking, menopausal symptoms, high cholesterol, heart disease, diabetes, weakened adrenal glands, low energy and vitality.
