1. We have moved to a new hotel which has a large enough meeting room to use their meeting facilities.
2. The hotel reservation fee of \$89.00, single or double, covers the cost of hotel rooms, the meeting room and the use of technology equipment. It also covers breakfast for two days and Thursday's lunch.
3. Room reservations are to be made by emailing:
sallie@clarionexton.com

ENVIRONMENTAL SCHOOL

The Environmental, Gardening, and Landscape Design Schools provide continuing education about the land, water, air, and earth on which we live, the field of horticulture and focusing on recognizing and practicing good land use. Course content is established by National Garden Clubs, Inc. (NGC). Four sequenced courses (1 through 4) comprise a series for each of the three schools. Each course consists of ten hours of instruction, which may include field trips and tours to related locations. Optional exams are offered for those wishing to become NGC Accredited Environmental, Gardening or Landscape Design Consultants. After passing two courses a student becomes a Provisional Consultant and may join a Consultants Council, a group that provides programs and tours that further the education of its members. Those garden club members completing all four courses receive a Consultant Certification Card, which is recognized as a special achievement among NGC members, but does not convey professional status. Those who have become NGC Consultants are eligible to judge contests and displays as representatives of the Environmental, Gardening and Landscape Design Schools program in events participated in by councils and clubs
