

ABOUT

Meet Jake, the inspiration behind this dog rescue! He was born blind and found wandering the streets of Los Angeles alone. His owners were contacted by a shelter but refused to pay \$20 to get him back saying "he wasn't worth it".

He made his way to the Bay Area via a rescue organization and was adopted by the founder of Jake's Wish Rescue!

We believe that every dog is loveable and adoptable. Jake's wish is to find a home for every dog!

ADOPT

1.2 million adoptable dogs are euthanized each year in the US because people abandon their pets, and too few people adopt from shelters.

A dog adopted from our rescue has been provided good medical care, has had the attention of a foster so behaviors of the dog are known and we can match you and your family perfectly with a suitable dog.

Thank you for considering adopting a rescue dog!

FOSTER

By fostering a dog, you are helping to provide short and long-term care for our rescue dogs in your homes.

We cannot rescue dogs from shelters unless we have wonderful fosters who open up their homes.

Your time, love and attention, prepare our dogs for adoption into a permanent, loving home. Nothing can be more rewarding than knowing you are saving a life every time you foster.

DONATE

Your donations are vital for our organization! They help pay medical bills for our dogs who need medical care before they can be adopted out. They also help us feed and get basic necessities for our dogs such as crates, beds, basic toys while they are in foster care so they can then be ready to be adopted out into their "forever" homes!

Any amount helps and we will provide a tax receipt for your donation!
