

PARTNERSHIP FOR SUCCESS

STUDENT SPOTLIGHT

ALEX ROSKY

Q: What attracted you to IREM?

A: IREM provides access to many resources for college students, including multiple development programs, events, and webinars for college students and other members to use. It is a great way for someone like myself to help expand my network.

Q: What is your major at Ohio State Univ. and the career path you want to pursue?

A: My major at Ohio State is Real Estate and Urban Analysis. Once I graduate, I would like to pursue a career in property management within commercial real estate. From there I would possibly want to continue working in commercial real estate but move onto asset management.

Q: What kind of impact are you looking to make in the industry?

A: I would like to create an organization that is there for the people first. I believe a great organization cannot be centered around improper values. I can envision starting a commercial real estate company that is socially focused. By leaving a lasting impact on people's lives, I would in turn, be leaving a lasting impact on the real estate industry, itself.

Q: What are your hobbies and interest outside of school?

A: Outside of school. I am a really big fan of watching baseball, and going skiing. Lately I have grown an appreciation for traveling across the country which, fortunately, can incorporate visiting new baseball stadiums and new ski resorts. My biggest interest would definitely be music production. I am obsessed with the ins and outs of how a song is created and I truly enjoy dissecting every aspect of what goes in to making a record.
