Why now? FSMA Good Manufacturing Practice regulations become effective 9/18/2018 for firms having under 2.5 Million Dollars of Animal food Sales.

The food safety modernization act (FSMA) is a federal law designed to increase the safety of human food and animal feed. All firms that manufacture or hold animal feed including pet food and treats have obligations under the act. For manufacturers, you must use good manufacturing practices outlined in the act when making feed. Employees must be trained in basic food hygiene and supervisors must be knowledgeable of the act.

Animal Food Qualified Individuals (QI) training: The class starts off identifying hazards in animal feed and then moves onto the basics of doing a hazard assessment. This assessment is required by FDA for all firms making animal food, regardless of size. Normal price is \$149 per student which includes the pdf of the participant guide and resources. Students will likely be a mix of pet biscuit bakers and small feed manufacturers. Our students are typically niche marketers of companion animal treats.

We've been finishing around 3:30 PM PST but we will stay until all questions are answered.

About us: We value the safety of the food you feed your fur family. Our company was formed in 2016 to deliver the training needed to implement FSMA and build a food safety culture in the feed industry. Our instructors deliver the courses monthly and have the experience to answer your questions.

Class will be online in a virtual, interactive classroom customized to deliver FSMA skills. You will be able to ask questions as we go. No special computer knowledge is needed. There will be a short system test session the week before.

Participant materials will be provided during the class on a google drive.

Who should attend? Quality and Production Managers and owners of feed and pet food companies that sell less than \$2.5 Million of animal food a year. Others involved in determining the safety of animal food as required by FSMA (Qualified Individuals).

Can a very small pet treat maker or feed mill survive FSMA?

A Certificate of Training will be awarded by Feed PC Training Inc. upon successful completion.
