Woodfields Retail Park, Bury	20/04/2016	38

(n = 98)

Ave: 31 months

Note 1. Date of installation not known, but signs seen on Google Street View of September 2015; they must pre-date that.

Note 2. **Signage** was (incorrectly) approved under planning permission regime, not advertisement consent Regs.

Note 3. Planning permission applied for and granted for **cameras** only. Advertisement consent neither applied for nor granted.

Note 4. **Advertisement consent** applied for and granted. Planning permission for cameras neither applied for nor granted.

Note 5. At this site it is claimed that the signs have been in place for more than 10 years without express consent and that consequently they have deemed consent under Class 13 of Schedule 3 of the Regulations. However, para 13(1) excludes from this exemption sites where during that 10-year period there has been a material increase in the extent to which the site has been used for the display of advertisements or a material alteration in the manner in which it has been so used. Is it not a matter of public record that over the last decade this car park has been substantially expanded and the signs are now larger and more numerous? Also, Stockport Council planners have confirmed that advertisement consent cannot be back-dated, so whilst there is deemed consent under Class 13 (for signs in place for more than ten years) there is no consent for signs displayed under Class 2 between 0 years and 10 years (no back-dating).

(Version 7, 14th November 2017)
