

BULLDOG

// custom industrial carts, containers and shelving™ //

Made in the USA 

Optimize workflow and improve production efficiency

“Bulldog-tough,” product-design features

Bulldog industrial wire containers are specially designed and built to stand up in the most demanding workplace environments. Highlighted here are some features of Bulldog's most popular-selling models, but remember: Bulldog is your custom-direct alternative.

2" x 2" steel
grid made of
0.192 cross wire

1" square steel
tube frame
providing a cleaner
look and optimum
weld integrity

Your custom industrial storage and transport container can be:

- Electro-zinc plated or powder coated.
- NSF approved. 
- A collapsible design.
- A mobile or standalone unit, designed to fit materials-handling devices.

Call 877.285.3294 to order or request a quote on a model featuring your own unique specifications.
