Hard Luck Points – a grand total of 50 points to be received if you don't score in a feature

2019 Ford Division Race Lineup Info

- The Speedrome aims to promote balanced competition with its tradition of handicapping the majority of race starting lineups. The main inversion method used since 1995 are rankings with the best ranked drivers starting at the back.
- A ranking chart is a driver's previous finishes in that particular type of event. These finishes are organized from best to worst. Drivers tied with an equal finish, will use their next best to break the tie and do so for as many finishes are needed. Drivers with no previous finishes have no ranking and will start behind ranked drivers. Late arriving, non-qualified, or drivers who miss their heat will also start behind ranked drivers.
- Heats will have their own ranking chart. Heats are inverted with ranked drivers spread evenly across races.
- Oval features will have their own ranking chart. Lineups are inverted.
- Figure 8 features will have their own ranking chart. Lineups are inverted.
- Spring Shootout and World Figure 8 weekend events may differ. See those event flyers for more information.
- On opening night, practice times will be used. Heats will be inverted with feature straight up.
