

Premiere Collection Skin Care Products begin with science and are combined with the talent of cell biologists and chemists to engineer product systems and products that :

- Are nature's answer to increase firming, elasticity and a reduction in puffiness and fine lines in the delicate eye area.
- Increase cell turn over, improving radiance, product absorption, pore size and fine lines for problem skin.
- Improve and reduce wrinkles.
- Improve moisture retention and hydration for healthy and problem skin.
- Repair skin damage; brown spots, redness, dehydration, dark circles etc.
- Firm, tighten, lift and reduce excess inflammation and puffy eyes.
- Calm, soothe, decongest aggressive or mild acne.

Most important steps to care for the skin:

**Exfoliate, Hydration, Moisturize,
Repair and Protection**

Lou's Styling Place
225 W. Romeo Rd.
Romeoville, IL 60446
