

Manufacturing Declaration

Product Name: MICROSPARK ™

V10.16.16

- Plant Pathogen Free
- E. Coli Free
- Salmonella Free
- Sewage sludge Free-Is a solid, semisolid, or liquid residue generated during the treatment of domestic sewage in a treatment works. Sewage sludge includes but is not limited to: domestic septage; scum or solids removed in primary, secondary, or advanced wastewater treatment processes; and a material derived from sewage sludge. Sewage sludge does not include ash generated during the firing of sewage sludge in a sewage sludge incinerator or grit and screenings generated during preliminary treatment of domestic sewage in a treatment works.
- Irradiation Free-Refer to the description in the Food and Drug Administration regulation.
- GMO Free-Are defined as a variety of methods used to genetically modify organisms or influence their growth and development by means that are not possible under natural conditions of processes and are not considered compatible with organic production. Such methods include cell fusion, microencapsulation and microencapsulation, and recombinant DNA technology (including gene deletion, gene doubling, introducing a foreign gene, and changing the positions of genes when achieved by recombinant DNA technology). Such methods do not include the use of traditional breeding, conjugation, fermentation, hybridization, in vitro fertilization, or tissue culture.
