

BSC-5000

Base Station Console

SPECIFICATION SHEET

Variable Base Communication Configurations for Greater Value

The BSC-5000 is specifically designed for use with the VX-5500 or VX-6000 Series mobile radios to provide users greater choices in Base Station configurations.

One console, when combined with VX-5500 or VX-6000 mobile radios, gives you a choice of bands and power ranges for just the right base station solution for your operation and for maximum return on your investment.

Built-in Power Supply

Contains 30 Amp DC power supply capable of delivering enough power to run 120W Low Band when used with the VX-6000 low band mobile radio.

Loud, Clear Audio

Includes front-mounted 12W speaker for clear audio sound.

DC Power Back-Up Connectivity

The BSC-5000 has rear connections for a DC back-up power input to support your critical operations in case you lose primary power.

Date and Time Indicator

Includes front panel LCD with 12-hour or 24-hour digital clock.

Accessories

- MD-12A8J: Desktop microphone
- FAN-1: Cooling fan
