Our Academy focuses on teaching Vaganova (Russian) ballet with an emphasis on classical repertoire. Proper terminology, body alignment and strengthening are integral components of early ballet training. **Pre-pointe:** An introduction the strengthening and stretching exercises essential for pointework. Secondary Ballet and up only. **Pointe:** The study of dancing on pointe, primarily for dancers 11 and up with extensive ballet training. Intermediate Ballet and up only. **Jazz:** One of the classical forms of dance, Jazz focuses on quick, sharp movements set to faster temp music. Our Academy focuses on all styles of jazz from Broadway to Classical. **Lyrical:** Lyrical uses the grace and fluidity of ballet combined with the strength of jazz to interpret the lyrics of music to tell a story. **Contemporary:** Contemporary is a more athletic form of dance combining ballet, jazz, and modern to create lines within a piece of choreography. **Modern:** combination of dance forms using an abstract concept making shapes & lines with the body. **Leaps & Turns:** Focus is given to essential turning and leaping that can be used in all forms of dance. **Tap:** Rhythms and sounds are the foundation for this style of dance. Dancers learn classical tap techniques to evolve into more complex, quick combinations. **Musical Theatre:** Pieces from Broadway musicals are studied in this class. Tap, Jazz, and acting are all part of this performance style class. **Hip Hop:** A relatively new discipline of dance derived from street dancing. Elements of classical Jazz infuses with freestyle street movements including popping and locking and breaking. Choreography is primarily set to hip-hop, pop and R&B music.
