

**April, 2020**

**GRAND PRESIDENT'S MESSAGE #10**

**Greetings Sisters and Brothers:**

Prayers that all are safe. Would like to make one comment. Due to the fact we are in a pandemic state now, Let's go back to our home training of washing your hands and face when coming in from outside playing, rolling in the grass, and making mud pies. **GOOD OL DAYS!!** Staying in your own space. Don't enter anyone's until you are invited in. This goes from a simple touch of the hands, rubbing of the back even though your hands may be clean. That person you are touching doesn't know where your hands have been and we don't know whether they have washed there's. Keeping our hands to ourselves. Don't enter their space unless you have permission. Hope somewhere in your childhood, mom told you to keep your hands to yourself.

Sisters and Brothers, miss all but please take care of your self and all family members that are risk. Check in on the sick. Offer your service if they need anything.

Let's not let our Veterans down. This is the time they need us more.

Praises to God that he leads us out of all of this and make us better for the lesson we will gain.

Thank You.

*Elaine Mitchell*
