## Mayor's Report

**Robert Fiala**  
Mayor/Safety Director

As we look towards spring, I experienced a recent event that helps to define this season. I had the privilege of marrying a young couple who live near our downtown. When they first reached out to me, they expressed a sense of urgency, and it was not until the day of their wedding that I fully understood the reason. The groom, a member of our military, was being deployed and they wished to be married before he left for his service. They were not interested in a large reception or the rituals often associated with a traditional wedding; they only wanted to affirm their commitment to each other, as the groom fulfilled his commitment to our country. Much like spring, the season of new beginnings, this young couple and their simple, unrehearsed wedding was a refreshing reminder of things to come, the future. They also represent the future

Who killed the handsome doctor? A cuckolded husband? A double cross from the mob? Robbery gone wrong? Disgruntled wife? Angry girlfriend? And what about the 4 lbs. of shrimp? When the gruesome murder case of Willoughby's Dr. Giuseppe Romano went cold in 1936, there was little hope that it would ever be solved. Cleveland had its hands full with a bloody decade of violent crime; but with the Mafia code of silence, secrets were kept – until an unexpected figure would betray the omerta fifty years later.

of our city. As young residents starting married life together in Willoughby, our hope is they raise a family here, have their children attend our local schools and become future leaders of Willoughby.

Another anticipated part of this season is the continued delivery and distribution of the COVID-19 vaccines. The launch of the vaccination program from the State of Ohio has been challenging, but the systems are improving, and we are hopeful that we will see increased numbers of vaccines released. For Lake County, the authority on vaccine availability, distribution sites and

determining when you can receive the vaccines is our Lake County General Health District website at [www.lcghd.org](http://www.lcghd.org). This site has useful updates, resources, and sign-up information.

The Willoughby Senior Center was recently a distribution site for a limited number of doses of the vaccine. Those who were vaccinated preregistered through the Lake County General Health District were efficiently registered and vaccinated through a well-coordinated effort led by Fire Chief Todd Ungar and his staff. Helping our Fire Department were our Senior Center staff, members of our Police Department and City Hall staff. There is a possibility that the senior center will be a future point of distribution and last month's effort was an important "trial run".

Getting back to the young couple and their unpretentious wedding, I asked what they had planned for their special day. Not surprisingly, they answered they were going to get milkshakes.

# Laketran Offering Free Transportation to COVID-19 Vaccine Appointments

Laketran is providing free, accessible transportation to any Lake County resident in need of a ride to a COVID-19 vaccination appointment.

Lake County residents can use Laketran's local route buses or door-to-door Dial-a-Ride service.

For Laketran's door-to-door Dial-a-Ride service, customers must schedule a reservation by calling 440-354-6100. Laketran recommends making a reservation for Dial-a-Ride as soon as you have a confirmed appointment for your COVID-19 vaccine. Reservations for Dial-a-

Ride can be made a minimum of one day in advance and up to 12 days prior to an appointment.

If a vaccination appointment is at a drive-thru site, Laketran customers will remain on the bus for the entire trip. Laketran will transport residents through the entire vaccine process and return

you home safely.

Kirtland resident, Jean Harvey, received her first vaccination at the county's Coulby Park distribution site using Laketran.

"The whole process went very smoothly. My bus was on time, the line wasn't very long, and I didn't even have to get off the bus - I couldn't ask for anything better," shared Harvey. "I usually ride Laketran about twice a week. During the pandemic I have continued to ride when necessary, like doctor's appointments or shopping, and have always felt safe."

Residents who prefer to take Laketran's Local Routes 1-9 can call Laketran Customer Service

at 440-354-6100 and request four bus passes be added to their EZfare account or mailed to them.

"We are here to help in any way we can to get our community through this pandemic and move forward," said Laketran CEO Ben Capelle. "We've responded with our mobile food pantry bus and now we want to make sure every resident has the opportunity to get vaccinated."

Lake County residents who need transportation assistance to get a COVID-19 vaccine can call Laketran at 440-354-6100 to schedule a Dial-a-Ride or get route information.

## Ride free to your COVID-19 vaccine

If you are a Lake County resident in need of transportation to receive your COVID-19 vaccination, Laketran will transport you free of charge.

## Puppy Socialization During the COVID-19 Pandemic

Socialization means introducing a pup to new situations and making them safe, positive, confidence-building experiences.

Many pet owners believed that getting a puppy during the pandemic would be ideal timing. The family is working from home and everyone has lots of time to spend with the puppy. Sounds great, right?

The home, however, is only part of a puppy's world. There are experiences that a puppy needs to have when being out and about: New and different sounds such as vehicles, construction equipment, and sirens; Meeting other non-family animals and lots of new people; Walking over, around and through different surfaces and objects. This exposure to different sounds,

people, animals and objects will help build a pup's confidence.

Experts believe that the period for socialization ends at approximately 20 weeks of age. In today's world of social distancing and limited mobility there are still options for socializing your pup. Group puppy classes can help introduce your pet to the outside world while maintaining a safe environment for all involved. Puppy-only playgroups by trainers can also facilitate the socialization process. Do your puppy a favor and help him/her to grow up to be a confident, well-adjusted pet.

# Bankruptcy 101:

## Bankruptcy Made Simple

The two types of bankruptcy that most people hear about are chapter 7 and chapter 13. The word chapter refers to the chapter (like in a book) in the bankruptcy code. Chapter 7 is a liquidating bankruptcy and chapter 13 is a non-liquidating bankruptcy. Liquidating means they (the government) can take your stuff. Non-liquidating means they cannot. However, there are exceptions to this. I will try to lay this out in a simple fashion:

In a chapter 7 you will be able to discharge all of your debts without paying anything back. However, if you have any equity (value) in anything (your home, your car, your bank account, your boat-anything) you must surrender it to the bankruptcy trustee (the person who looks out for the creditors) so that it can be sold (liquidated) to pay back the creditors to the largest extent possible. Equity is what determines which chapter of

bankruptcy you can file under. Fair Market Value minus Amount Owed equals Your Equity in anything.

A chapter 13 is a non-liquidating bankruptcy. This means you get to keep everything, but you have to pay back a percentage of your debt. It is also used for people who are in foreclosure or behind on their mortgage and in fear of foreclosure.

A chapter 13 requires a payback plan from between three to five years. The payment is monthly. The amount is determined, again, by the amount of non-exempt equity you have accumulated in your life. Exempt equity is equity that the law says your creditors cannot take. Non-exempt means they can take it. Your total equity is referred to as your bankruptcy estate.

Obviously, everyone wants to do a chapter 7 because it is no pay back. However, since 2005 it has become much harder to file chapter 7. In 2005, legislation was passed which tightened up the income restrictions on people with

regard to the Chapter 7 bankruptcy. The intended result was that more people must file under Chapter 13 of the Bankruptcy code and pay back, at least, what the government thinks they can afford.

It is the bankruptcy attorney's job to advise you which is the best chapter to file under. It is also the attorney's job to make sure you keep your home, your car, and everything else you have accumulated throughout your life. At Biales Delchin Law we concentrate in the area of bankruptcy. Our practice is dedicated to helping people resolve their financial problems in an honorable and dignified manner. We understand how hard it is for people to take this step. We are sensitive to the pain, despair, sense of failure and humiliation many feel for being in this situation. We are dedicated to educate our clients in a compassionate, caring and sensitive manner as to why it is an act of love to yourself and your family to file bankruptcy; that bankruptcy is a mechanism created by the United States Constitution

to help people get back on their feet and start contributing, once again, to our economy and that you are not only helping yourself and your loved ones but that you are actually helping the economy and your country by filing bankruptcy in most cases (that is why it was created by the Constitution as a power granted to Congress).

Some of the greatest and most honorable people in U.S. history have had to file bankruptcy. Abraham Lincoln filed bankruptcy; so, did Thomas Jefferson and Ulysses S. Grant. It did not affect their contributions to society or malign their names. Bankruptcy- if needed- is good. Anybody who thinks or says otherwise has never been in life and sanity threatening financial distress; they have never suffered unending merciless harassment, letters, and phone calls by bill collectors. You do not have to live that way. You can regain your peace of mind.

If you are in this situation you are not alone. We can help you get your sanity back. Please

come in for a free completely confidential consultation. You will speak with an experienced bankruptcy attorney. Your case will be analyzed and you will be given a detailed and compassionate evaluation of exactly what can be done to help you. There is absolutely no obligation or pressure to hire us. You will not be asked to give us money or sign anything and no one will ever know that you came. We are legally bound to the highest level of confidentiality in these cases.

If you decide bankruptcy is the solution for you, we will be happy to put you on an affordable payment plan. We will stop the annoying collection calls immediately. We will protect you from lawsuits, garnishments, and other collection activity. We will see to it that, if possible, you keep your car, home, and all of your other property. Bankruptcy is a wonderful legal tool that can give you peace of mind and give you a fresh start in life. I have seen it work miracles.

## Will Your College Student be Home for the Summer? He or She Can Get Ahead with Classes at Lakeland

Traditionally, many students at four-year colleges and universities come home for the summer. This year, some may have never left for their campuses due to social distancing, safety concerns, fewer in-person classes and more online offerings. Your

college student may have even opted to take a semester or the year off.

For years, summer has been a time for high achieving students to get ahead. Now students also need affordable options for catching up on coursework, and

Lakeland Community College delivers.

You might ask, "why would a four-year college student take classes at the local community college?" The answer is simple, it makes good business sense. Lakeland's tuition is about one-

third the cost of four-year public universities, and the credits are accredited. This means that standards and course objectives are the same at Lakeland as other Ohio four-year colleges. And, the credits earned transfer back toward the student's bachelor's degree. Taking courses such as accounting, biology and English at Lakeland is the smart choice – students walk away with a quality education at a fraction of the cost.

Summer registration opens

March 8. There are three start dates:

- First Summer 5-Week Session begins May 17.
- Full Summer 8-Week Session begins June 7.
- Second Summer 5-Week Session begins June 23.

Summer classes are offered in-person as well as online for those who prefer to study in the safety of their home.

Visit [lakelandcc.edu/summer](http://lakelandcc.edu/summer).

“ I was on track to earning my college degree. With all this uncertainty, I took a semester off. Now I'm ready to get back on track. ”

## Don't Get Caught Without Clean Drinking Water Again! The Reverse Osmosis Solution

By Benjamin Franklin Plumbing & DeBord's One Hour Heating & Air Conditioning® of Chardon, Ohio.

While Many of us expect our city drinking water to be consistently free from impurities and imperfections, the reality can be much different. At any given time, there are several factors that can affect the quality of your drinking water, ranging from your public water supply's source to the quality of the plumbing that your drinking water travels through to reach your tap. These factors can affect the taste, appearance, and even the safety of your home's drinking water if not addressed. Regardless of the cause, bad

tasting and bad looking drinking water can make us wary when filling up a glass from the tap and make us ask the question: *Is my water okay to drink?*

Municipalities regulate and treat their water supply for contaminants and impurities, but recent news stories about the failures of some public works can make trusting the quality of our drinking water that much more difficult. What steps can we take to make sure that we are consuming the highest quality, safest drinking water we can?

### The Reverse Osmosis Solution (RO)

The perfect home solution for the best, most convenient drinking water comes in the form

of a process called reverse osmosis (RO). A reverse osmosis treatment unit "polishes" water through a multi-stage filtration process that reduces bothersome contaminants that affect the smell, look and taste of your water. In addition, an RO unit also reduces more harmful contaminants, such as lead and arsenic.

Much like a fridge or pitcher-style water filter, an RO system includes carbon filters to reduce contaminants. These filters are much larger than the ones found in your fridge and water moves more slowly through them, giving the carbon enough time to do its job properly. In addition, a unique membrane filter catches

any remaining impurities at the microscopic level. This is the stage where contaminants like lead, arsenic, nitrates, and cysts are removed.

A reverse osmosis unit has a small footprint and can be installed easily in most homes. It is often installed beneath a kitchen sink or in a discrete and accessible location and is connected to its own dedicated faucet.

These faucets come available in a large variety of colors and styles and are designed to match and compliment your kitchen. Once installed, you and your family will have quick and convenient access to the high quality, pure drinking water that you expect in your home.

In addition to providing pure water for drinking, the taste and odor free qualities of reverse osmosis water is ideal for using in

cooking or in hot or cold drinks. Even the slightest water impurity can affect the taste of a new recipe or your morning coffee. Using reverse osmosis water ensures that you are using the purest, cleanest ingredients you can.

If you find yourself questioning the water that comes from your tap or if you simply want better tasting, better-looking drinking water for your home, the first step is calling a professional to test your drinking water.

## Audubon Offers Solutions to Single-Use Plastic

Blackbrook Audubon Society will host "The Problem with Plastic" by Jill Bartolotta in a virtual program 7:00 p.m. Tuesday, March 16.

Everyone is invited to register on the event page of Blackbrook's website at [blackbrookaudubon.org](http://blackbrookaudubon.org). Those registering will receive a link to the program, which will give an in-depth look into our use of plastic, its effects on us and the environment,

and provide simple, inexpensive steps to break free from it.

Ninety-six percent of the trash found on beach cleanups along the Great Lakes is plastic, with most being identified as single-use. Plastic is not meant to be in the natural environment and its presence is wreaking havoc on ecosystems, the safety of our food and drinking water, and the economy.

As the Ohio Sea Grant Extension Educator for Ashtabula and Lake Counties, Jill works with municipalities, scientists and the public to collaboratively manage Lake Erie and its resources. Her research includes our reliance on single-use plastics and barriers to reusable alternatives. For more information, email [blackbrookaud@aol.com](mailto:blackbrookaud@aol.com).

# MEDICARE SUPPORTS MENTAL HEALTH

All of us are well-aware of the impact COVID-19 has had on our lives. While the health care community continues to fight the physical effects of COVID, mental health professionals are dealing with an increasing number of people struggling with the consequences of isolation, fear, and loneliness brought about by COVID.

Medicare is a valuable resource when it comes to supporting mental health. It covers preventive screenings, psychological counseling, alcohol and drug abuse counseling, outpatient treatment programs and more. Health care through the following providers is covered:

- General practitioners
- Nurse practitioners
- Physicians' assistants
- Psychiatrists
- Clinical psychologists
- Clinical social workers

• Clinical nurse specialists  
Now, during the COVID-19 pandemic, Medicare has temporarily expanded its coverage of telehealth services making it easy for Medicare beneficiaries to meet with a mental health care professional from the comfort and privacy of their home.

While many mental health services are covered by Medicare, beneficiaries are responsible for the Part B deductible and 20% of the Medicare-approved amount for visits to their doctor or other health care provider to diagnose or treat your condition.

Medicare does not cover all types of therapy. You are not covered for marital counseling or counseling with a pastor. It is always best to check with Medicare or your Advantage plan for all eligibility requirements. In addition, ask your health care provider if they accept your

Medicare insurance before you begin receiving services.

If you have Original Medicare and need help finding a participating provider, you can use Medicare's Physicians Compare tool online or call 1-800-MEDICARE. If you have a Medicare Advantage Plan, call your plan directly for a list of mental health care providers in your plan's network.

If you or a loved one has feelings of anxiety, stress, isolation, or depression, help is available. For more information, contact Medicare at 1-800-Medicare or go to Medicare.gov and search Mental Health Care.

If you have questions on insurance including Life, Health, Medicare Advantage and Medicare Supplements, please give me a call at 440-255-5700 or email me at [Lmutsko@mutskoinsurance.com](mailto:Lmutsko@mutskoinsurance.com). I look

## THE STRONGEST FLOORS IN THE INDUSTRY!

# Celebrating Our Strengths

Our strength is providing a service that helps our clients and their families.

Sometimes we get so caught up in caring for others we forget ourselves. And, in doing so we forget to honor our life and our loving relationship.

What are our strengths? And, what does that mean to you?

**Longevity with our caregivers** means your loved one gets the

best of care—they are in the hands of committed and experienced caregivers.

**Mandatory special training each month** means your loved one gets the most up to date care—their needs are met.

**Special memory care activities** means your loved one's mental capacity is extended—their quality of life continues.

**Many of our caregivers have**

personally cared for their loved one and that means they have been there—they know and understand the challenges involved.

**CPR trained and certified** means you can feel confident your loved one will get the best of care if there is an emergency.

**Mandatory virtual dementia tour** means our caregivers can better care for clients with dementia.

Our service not only takes care of your loved one, but also helps

you. You experience a sense of comfort knowing your loved one is in good hands. This peace of mind permits you to take a real break so you can relax, recharge and refocus. And, this allows balance so you can maintain your best self and a relationship.

We don't think we can afford a break, while the truth is, if we don't take a respite it will break us. What if you could take a break and refocus, and renew the joy you get from caring for your loved one? It could mean listening to understand more, having more patience and stopping the internal conflicts and doubts.

It means looking into the eyes of a loved one and seeing love reflected back.

We want to value and celebrate our relationships, strive to be our best—a family that supports one another in good times and bad times.
