## ABOUT US...

We are little farmers like you and many of our family, friends & neighbors. My husband started with backyard chickens as a kid in Del Mar, CA. He's raised up to 100 chickens for EGG production, breeding, showmanship and just for fun. I grew up near dairy farms in New York then lived on remote property in British Columbia, Canada. Chickens were not my favorite until I purchased my own small property with my son. Together we realized that raising your own chickens from eggs or chicks created a pet like environment with healthy EGG benefits! After selling and supporting many quality farm and animal feed products, it was only natural to create our own. We love organic and natural feeds. We love to give our chickens, tortoises, goats and horses fresh garden treats. I love to cook with fresh organic ingredients. Little Farmer Products is the treat our friends, family and customers can offer their backyard chickens. We've given away many beautiful chicks and chickens or traded with friends who breed. We know, when you want to raise them right, you have to offer a complete natural non GMO or organic feed. The more time you spend interacting with your hens, the friendlier they become and friendly chickens make kids smile:)

Our treats are focused on high quality protein which is much needed for nutritious EGG production. We add special ingredients we've researched such as; Chili peppers ( high in antioxidants and vitamins but your hens aren't bothered by the heat ), Oregano is great for their health and well being, Sunflower and Safflower are packed with essential oils for beautiful shiny feathers.

Raising Chickens from chicks to senior hens is very rewarding. We created fine grit mixed with diatomaceous earth, Redmond brand mineral clay and rosemary to help chicks digest their first protein filled grains and seeds.

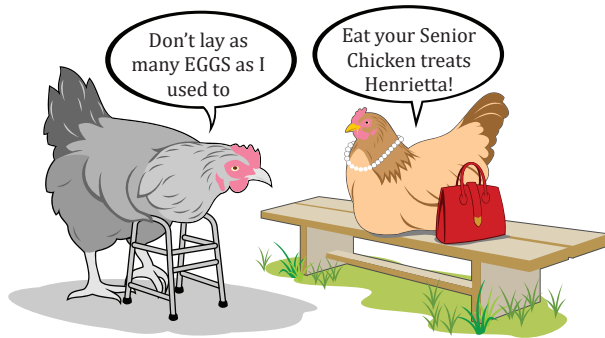

We want your Little Farming to be as rewarding as ours has been and we hope to help you while your flock grows.

*Sincerely Chuck & Stephanie owners*

# LITTLE FARMER PRODUCTS TREATS

Backyard laying hens need a complete feed diet at 1/4 lb per bird per day with a protein level of 16 to 18%. It's natural for your hens to scratch and peck the ground for bugs and seeds. You do not need a rooster for hens to lay eggs and the nutrition found in the egg is affected by your chickens diet. The outside color of your eggs depend on the breed of the bird but the inside is the same. Plenty of clean water each day is a must. You may feed treats after access to a complete feed diet which may make your chickens more friendly and offer a boost of protein. Extra protein is helpful for senior hens over 2 yrs. and during molting. Let's talk about some treat mixes that are great for the well being of your flock!

## SENIOR CHICKEN

Senior hens need more protein and calcium. Pamper your hens with our strawberry & black soldier fly protein pellet. They'll love the added mealworms and benefit from the chili peppers without tasting the heat. Oregano is another ingredient we recommend for your flock.

# LITTLE FARMER PRODUCTS ESSENTIALS

## TRUE GRIT

Poultry Grit with a Purpose, granite for digestion & diatomaceous earth, REDMOND ® Brand Clay Products with minerals & limestone for shell integrity.

## & CHICKIES TRUE GRIT

When your chicks eat regular feed they need grit. We've picked out the perfect size grit for Chicks two weeks and older mixed with the same beneficial clay, diatomaceous earth and rosemary as the big chickens get!

**In 5 lb bags**

## OYSTER SURE SHELL

OYSTER SHELL FOR LAYING HENS IS HIGH IN CALCIUM. CALCIUM IMPROVES EGG SHELL INTEGRITY.

**In 5 lb bags**

## COOP RIGHT

Keep your coop fresh & healthy; sprinkle Coop-Right in nest boxes, on the floor, or fill a shallow pan for a dust bath. Bugs don't like our Diatomaceous Earth, Rosemary, & Redmond brand Clay mix that absorbs moisture & neutralizes ammonia.

**In 3 lb bags**

**SMART CHICKS KNOW...** Chickens DON'T have teeth. They pick up stones that go to the gizzard. These stones act as a natural grinder to aid in digestion.
