As of November 1, 2010, the Road Committee and the Board of Directors has instituted Road Use Fees for new construction projects within the Cedar Point subdivision to create a fair and equable fee schedule, which promotes improvements by the members of the community, while simultaneously protecting the road investment of the community at large.

The following are the fees (Rev. 5-18-17):

All new home construction or replacements of mobile homes are subject to a \$500.00 fee. This fee shall cover all trucks required for the scope of project, envisioned and permitted on the approved ACC Application.

Existing Structure add on, replacement, or improvement fees shall be based on the total number of commercial trucks that are brought into the subdivision on behalf of any single site per project. Each new project will still require a new permit. If the same property owner owns other noncontiguous lots in the subdivision, a separate set of fees shall be applicable to each set of lots.

Trucks are defined as any type of commercial vehicle, or combination of vehicles, with more than 6 wheels making deliveries regardless of the type of cargo. For example, if a project uses 1 truck to bring in and pick up (round trip) equipment, 2 dump trucks, 1 truck of concrete, and 1 truck of lumber, there would be an accumulation of 5 trucks.

Fees as of 5/18/17 Revision:

- Any new structure to be utilized as a residence, including modifications like landscaping, driveways, etc., made within one year of initial completion .....\$500.00
- Projects exceeding 750 square feet or requiring the entry or delivery utilizing 4 or more trailers or commercial vehicles used to bring in construction materials.....\$200.00
- The addition of a boat house, boat deck, pier or ramp, etc., not included when the house was built.....\$100.00
- All other exterior projects requiring more than 2, up to 4 trailers/trucks or commercial vehicles (grass, soil, gravel, etc.) .....\$25.00
- There shall be no charge for the removal of mobile or modular homes from the subdivision. Any damage caused to the roads during the process shall be paid to fix or repair the road by the permittee.
- The removal of any other materials from a property by truck load, including debris from tearing down a structure, or removal of dirt or concrete, or other materials:
 

• 1 to 20 outbound/inbound trucks	No Charge
• 21-100 outbound trailer/trucks	\$10.00/per truck/trailer
• 101 or more outbound trailer/trucks	\$25.00/per truck/trailer

TRUCK LOAD LIMITS (Please notify your contractor or supplier)

Any truck exceeding the following limits will be turned away from the front gates of Cedar Point to protect the roads. Property Owners are responsible for notifying contractors and other vendors of this requirement.

Cement Trucks ----- 6 Yards    Dump Trucks ----- 14 Yards
