

Reduce, Reuse, Upcycle T-shirts

\$40 (2 hour class)

Class Requirements Beginning to intermediate garment sewing skills. There will be no homework.

Class Description

Everyone has plenty of t-shirts, but rarely does a shirt have every detail that makes it your favorite. Instead of searching endlessly, you can learn how to learn how to make t-shirts work for you! Altering t-shirts are a great way to use those great thrift store finds with awesome graphics, or the shirts in the back of the closet that have lost their appeal. Join us and learn how to make any t-shirt your own with basic sewing skills that anyone with a sewing machine can use. In Reduce, Reuse, Upcycle T-shirts, we will go over machine stitches appropriate for jersey, how to change necklines, how to make cap sleeves, and the process of getting rid of the sleeves altogether to make a tank top!

Supplies

A jersey t-shirt or two, matching thread, a method of taking notes
