

ROUTE DESCRIPTION:

The Fall Creek Falls Triathlon Swim Course is 1500 meters from an in-water start - looping - to a carpeted shore exit. Swim buoys will be orange at approximately every 200 meters with the last buoy being YELLOW. A Yellow swim finish banner will mark the swim exit. There is an approximate 400 meter run to transition on paved park road. A shoe area will be marked should you want to place shoes for your jaunt! Water is typically above 78 degrees in August and most likely not a wetsuit swim. Race begins at 7:30 AM.
