1 God believes in **Tribes**.

1 God's long term vision for humankind always was that of 7 Tribes speaking 7 main languages and many dialects. Living in harmony with the Habitat! Globalization is destroying this vision making it anti **1 God**. **7 Tribes** are **1 God's** people living in **7 Provinces!**

1 God created humans to be social, seeking the company of others. He, She seek each other to mate, multiply, companionship, share and start a family. A new family socializes with their own extended family and with others: community living.

were people live in harmony with the habitat; were local traditions are kept alive; were memories are accumulated; were the heart is. **Home!**

A **Shire** encourages the establishing of '**CRON**' (Community Run Owned not for profit) business. Shire encourages conversion of private and state ownership to community ownership. **CRON** replaces, Communism (State owned) and Capitalism (private ownership). Anti **1 God** profiteering bosses and state technocrats'. They are replaced with worker owned, worker managed (**CRON**, **DmC**) entities. Establish, support your community **CRON!** **CRON** and Community are reaching for the Stars (Space Exploration, Colonization), our Destiny !!!

1 God selected humankind to become Custodian of the physical Universe. **1 God** wants humans to multiply, colonize space and become Custodians of the physical Universe. Universe Custodian Guardians supply guidance and **law** for space exploration.
