

# Glorybound Publishing

Glorybound Publishing was started in 2005 by Sheri Hauser in Las Vegas in response to her own spiritual writings. Her original books are written from dreams (Dream Books) on the subject of hearing the voice of God. There are 20 of the dream books. She joined with her artist sister, Karina, to pen a bunch of children's books (GBK) and plays with music. Additionally, she is the author of the Glorybound Lasertrain. Over the past years, Glorybound has gathered many artists and authors. We have our own spiritual authors (Morlotts) as well as publish for authors who wish to keep their books (within their family, etc.)

We offer personalized services related to all aspects of publishing: Including helping new and experienced authors publish, print and release their works; marketing with web sites, Editing, ISBN and Copyright Registration, Personalized logo development, as well as brochures, flyers, signs and banners. Over the past 12 years we have published over 400 books. We own 1000 ISBN Numbers. Our average book release time is around 9 months.

We cater to those who wish to release spiritual books, educational books, family history books and children's books. We assist the author and artist who wish to compile a book from start to finish helping them to select the right options for distribution. One exciting recent addition is a sound studio where we can record the books to release as audio versions with music!

## We do more than Books

We also have the **Glorybound Lasertrain** which is a program that **Helps Business Help Themselves**. In today's age, most have computers, software, printers and great agility to motor from one data base to another. Glorybound Lasertrain offers a unique opportunity for individuals to make their own books, brochures, pamphlets, business cards, menus and signs. We have designed over 500 templates for digital publishing. These are all from projects we developed and used; so the display is readily on hand. In addition to the templates we have 'loaded laptops' with publishing software which will open the programs so you can make

your stuff. Not only can you design it; you can make it in the studio. There are 40 machines available to use on a rental basis and a graphic artist on hand to offer assistance to ensure success. The best part about the template is you will be able to take the design home and print on your own printer! We have a paper drill, a 36" Laminator, 4 binding machines and a ton of cutters.

**Glorybound Christian Writer's Association** helps to educate professional Christian Writers. Classes led by our writers!

**Rehema Pilot Project** is an orphanage project in Kitale, Kenya. It is 6 phases (we are on phase 3) which helps them to help themselves. They now have three cows and some chickens!
