

**PROJECT NAME: CAMBRIDGE PUBLIC SCHOOL DISTRICT
DISTRICT WIDE SECURITY PLAN**

PROJECT OWNER:	PROJECT LOCATION:
Cambridge Public School District	459 Broadway
	Cambridge, MA 02138

Project Description:

Working with the Cambridge School Police Department, Standing Stone conducted a Crime Prevention Through Environmental Design coupled with Response Enhanced Design (CPTED-RED) assessment and analysis of all the School District facilities. This assessment included 16 school buildings, support facilities, their associated grounds and those aspects of the surrounding neighborhood that can impact the security of the facilities.

Team members also conducted a review and provided recommendations for changes to the existing Safety and Security policies and procedures of the Cambridge Public School District.

In addition the team reviewed and made recommendations for improvement for the following:

- Existing policies and procedures for student, staff and visitor access to buildings.
- Existing policies and procedures regarding building use by outside organizations
- Discipline infraction reporting and data collection systems
- Standards and training for all employees regarding safety and security practices
- Emergency Management Plan
- The Cambridge Public Schools Safety and Security Department relationship with the Cambridge Police Department,
- The Cambridge Public Schools position of conflict mediator

The team provided a written report that contained the assessment observations and recommendations regarding improving security for individual schools, and other type buildings. The team also provided a recommended District-wide security plan.
