Angus Seedstock

A lesson in history helps to understand where we have come from, but also gives us the opportunity to reflect on change. History provides context. **The Curran and Fischer families have been ranching in Amador and Calaveras Counties for over 150 years.** Our roots as commercial cattlemen keep us grounded in the type and kind of cattle we produce and operations we run. Taking care of our resources, working hard and harvesting as many pounds of high quality product have always been the core principles of success in Agriculture. Our strong connection to this region and our foothill communities have honed our focus on the type of cow required to excel at this task.

- Produce the most pounds our environment will support
- Optimize our total cowherd performance through consistency
- Produce profitable, problem-free females that leave a lasting impact for generations
- Use EPDs and Genomics as tools to compliment, not replace, actual production and type in our genetic selection

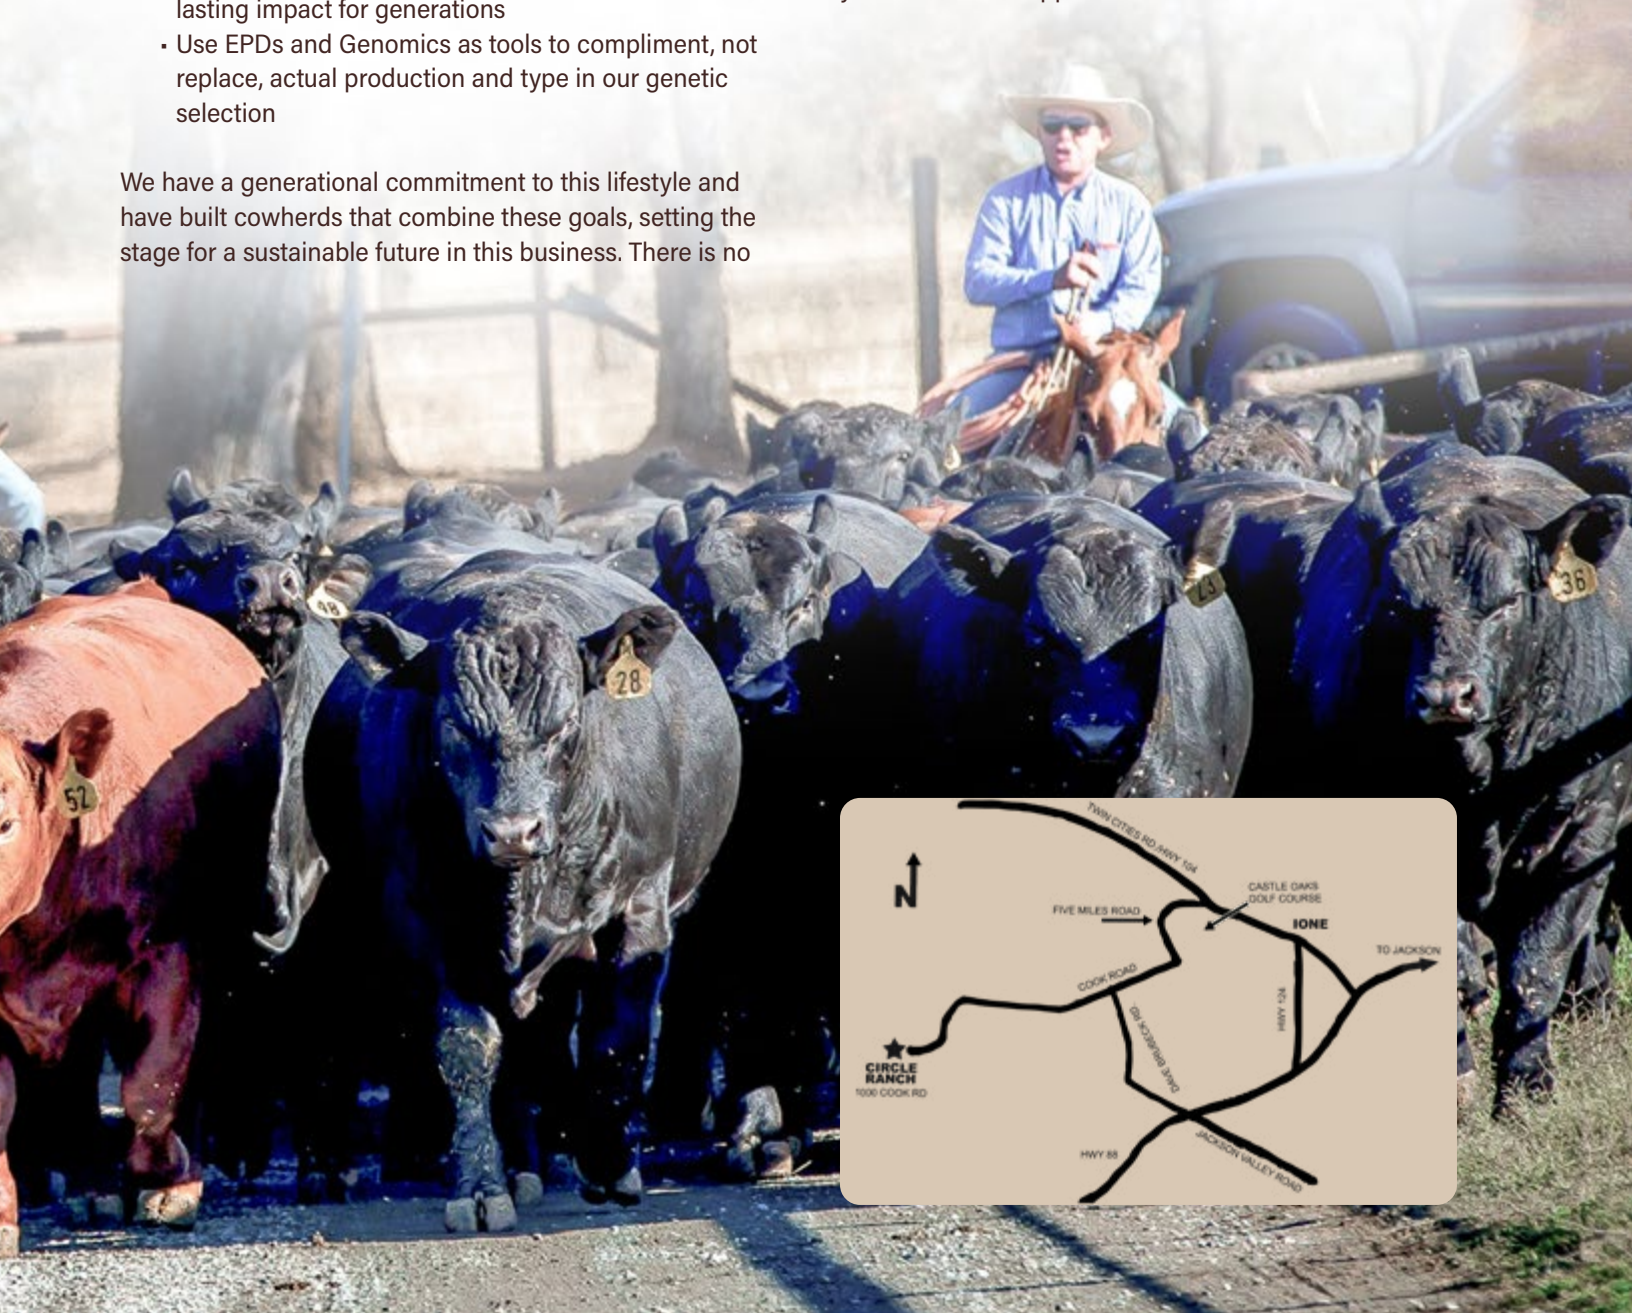

We have a generational commitment to this lifestyle and have built cowherds that combine these goals, setting the stage for a sustainable future in this business. There is no

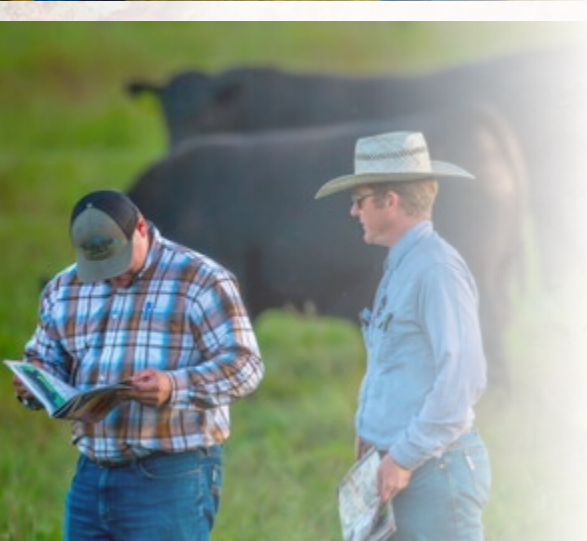

greater testimony to longevity than the simple fact that we are still here ranching right alongside you and our children aim to continue.

While we cherish our heritage, we understand and fully accept the responsibility of producing the kind of cattle that position our customers for success in the future.

After all, our cowherd today is what yours will look like tomorrow. This offering is the culmination of many years of our breeding programs and an honest commitment to the ranching families that we are humbled to call our family and friends. We sincerely thank you for the opportunity to be your seedstock supplier.

IT'S ABOUT *Time!*

Friends,

Welcome back to the Beef Solutions Bull Sale. In our letter last year, we shared **"the cow business is about to get good!!"** and boy has it! We have seen value shared up and down the supply chain for good cattle from your programs and all we can exclaim is "it's about time."

We firmly believe that Circle and Bruin Ranch genetics have become a household name and our customers' cowherds hold value. Whenever we get out to ship calves at weaning or during branding season, we are blown away by the quality of the mother cows our customers have bred. All black hided cattle aren't created equal and if you don't believe us, go look around, your cattle are different, and they have value.

As the nation begins to rebuild a cowherd, we expect high demand for those solid and truly maternal cattle that you all have been breeding for years. The terminal-based selection criteria that dominates domestic cattle production has left a national cowherd that is big, hard and riddled with problems. A mother cow who is blue collar, does her job every year and is problem-free has become rare and valuable. We have often joked that at some point our customers' heifers will outsell their market-topping steers and we think that day is here! Stay committed to solidifying your strong maternal base, this forces breeders to come to YOU as their source for replacements. We hope many of you see this as an opportunity to leverage the quality of your programs and find innovative ways to add premiums to the female side of your calf crop.

We hope you enjoy the offering; please join us for our pre-sale casual dinner at 5pm on Wednesday, September 27 at the sale facility. We look forward to seeing you at the Circle Ranch for the auction on Thursday, September 28 where a prime rib lunch and refreshments will be provided throughout the day. Please call with any questions including marketing options for your cattle, genetic strategies, adding value and any topics that may concern you. We treasure these conversations among our peers.

Please contact Tim, Joe or Jill with any questions or regarding room accommodations for out of town visitors.

BID IN CONFIDENCE

All sight unseen purchases guaranteed.

ANGUS BULLS: Lots 1-74

SIMANGUS™ BULLS: Lots 75-181

Hotel Accommodations:

Comfort Inn, Galt, CA.....(209) 744-7800
Holiday Inn Express, Jackson, CA.....(209) 257-1500

Sale Site: The sale will be held at Circle Ranch in Ione, CA. See map on inside front cover.

Herd Health: All bulls in the sale have been Anaplas vaccinated. Health protocols available from either producer detailing the timing and brand names of vaccinations and worming upon request.

Semen Testing: All bulls selling have passed a rigid semen test and fertility evaluation by an accredited technician.

Retained Semen Interest: The Beef Solutions breeders are retaining one-third semen interest on all bulls selling in the sale, unless stated otherwise. Buyer receives possession and full salvage value on the bulls.

Supplemental Information: A supplemental sheet, with complete up-to-date performance information on all bulls, is immediately available from either producer. All performance information is available sale day in hard-copy form, this sheet and any announcements from the block will take precedence over the printed material in the sale book.

Angus Genetic Information: All potential carriers for known genetic conditions: AM, NH, CA, M1 and DD have either tested free or are excluded as possible carriers by pedigree.

Inspection: Cattle will be available for inspection beginning Tuesday, Sept. 26 through the conclusion of the sale.

Bid and Buy Online: This sale will be broadcast through Superior Production's Click-To-Bid Internet service. For details about how to participate, turn to page 9.

Livestock Insurance: An agent is available sale day to facilitate any insurance needs you may have. Please see Joe for details.

Bull Delivery: Free delivery in California and adjoining states up to 300 miles. All deliveries are made at the buyer's risk. Take \$100 off the purchase price for every bull hauled home sale day.

Hospitality: Refreshments and food are available on Wednesday afternoon and all day on sale day.

Bull Guarantee: All bulls selling have passed a Breeding Soundness Exam prior to sale. To insure your investment, the Beef Solutions Team will guarantee all bulls against breeding injury, and to be sound breeders for the first breeding season. Breeding Season is defined as the 90-day period following the first turnout of bulls. If a problem arises, contact us immediately and we will provide a replacement bull if available, or if the buyer prefers, credit toward a bull will be given for the upcoming sale, less salvage value of the injured bull. Notification of an injury or problem PRIOR to bull being sold for salvage is required for the actions of the guarantee.

Terms & Conditions: All purchases are to be settled for SALE DAY unless prior arrangements have been made. Cattle will all sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

Disclaimers: The Beef Solutions Breeders and Circle Ranch assume no liability for accidents, injury or Covid-19 exposure that may occur. Attend the sale at your own risk.

Photo Credits: Special thanks to Logan & Stevie Ipsen for bull photos; Savannah Molina for bull and landscape photos; Rick Raef at Working Ranch Photography, Patricia Fischer, Kati Roberti and Grant Company for landscape photos.

WE'VE ALWAYS BEEN ABOUT *Solutions!*

The Beef Solutions Team will once again offer the user-friendly toolbox in this year's sale book to help you in your buying decisions. Below the pedigree and genetic information, we've listed percentile rankings within breed and labels for individual outliers for particular traits.

Additionally, we're providing a toolbox that identifies different solutions (for Angus and SimAngus™). This reference is helpful to quickly find sires that can provide a specific service – like breeding heifers or improving carcass and performance – in your calf crop.

ANGUS BEEF SOLUTIONS

CALVING EASE SOLUTION - A tool to consider when selecting heifer bull candidates. Bull has a 1.4 Birth Wt. EPD or less and a Calving Ease Direct (CED) EPD in the top 30% of the breed.

PERFORMANCE SOLUTION - Bull ranks in the top 50% of the breed for his Weaning Weight and Yearling Weight EPDs.

\$EN SOLUTION - Bull ranks in the top 50% of the entire breed for \$Energy.

\$W SOLUTION - Bull ranks in the top 50% of the entire breed for \$Wean.

COMMERCIAL-FOCUSED THEN, NOW

and Tomorrow

Thank you for giving our programs the chance to offer genetic improvement to YOUR exceptional programs and thank you for continuing to offer your business to us. We believe in our genetics and service but are humble enough to admit that it is by YOUR own efforts and YOUR quality cowherds that our genetics have had the opportunity to flourish.

Your commitment to a quality cowherd continues to drive our programs to breed toward more consistency, more longevity, more productivity and more profitability. Your constant support and affirmation are our satisfaction. We thank you for your business, and we thank you for the relationship.

Beef Solutions Benefits

- First breeding season guarantee
- Large Sire Groups in Volume
- Free Delivery in California and adjoining states up to 300 miles
- Free Bull Drawing at the conclusion of the sale
- Year round customer service and marketing support
- Cowherd run like commercial cattle on range in the Foothills
- Family owned, Family managed
- Sight unseen satisfaction guaranteed
- Phone, Internet and In person purchasing options
- Exciting new genetic consultation. See page 34!

Win a **FREE BULL!**

Immediately following the conclusion of the sale, there will be a drawing for a FREE BULL. After the gavel drops on the final bull, we will draw a lot number from a pot and that bull will be given a credit towards the purchase price equal to the final sale average. If the bull selected is less than the average, then the bull is FREE with no cash compensation.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

Our absolute favorite part of sale day is visiting with you in person! However, we recognize that with this year's unique public health situation, some of you may feel more comfortable to purchase your next herdsire from the comforts of home. **This is why we have also made preparations for bidding by phone as well as bidding through Superior Productions' "Call or Click-To-Bid" service.** Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 3783380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign-up.

Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet:

- www.superiorlivestock.com, or
- www.superiorclicktobid.com.

Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com.

com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

***If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.**

“Our **RICH HERITAGE** of ranching in the gold country
produce cattle with traits *optimized to thrive* in t

Bruin Ranch

"The heart of our program lies in our **generational passion for the commercial beef business.** We have always bred cattle to work within our western rangeland environment. Cows that are long lived, productive and fertile continue to drive profitability. Our rich heritage of ranching in the Gold Country drives our quest to produce cattle with traits optimized to thrive in this region. **Optimizing traits doesn't happen by chance, it needs to be selected for through predictable pedigrees, actual production, maternal type and by having a strong knowledge of the environment and management scenarios the cattle are asked to perform in.** Being raised on a cow/calf operation in Calaveras County provides a strong foundation that all our genetic decisions are tested against."

*drives our quest to
his region."*

The Fischers - Joe & Abbee, Bennett, Paxton, Myles and Maryalith

FROM OUR FAMILY *To Yours*

An operation of this scope is impossible without help from our community; thank you to our parents at the AM Ranch for doing an outstanding job raising our Embryo calves. Our boys, Bennett and Myles have filled the roles traditionally occupied by a third employee with enthusiasm and outstanding work ethic. Wyatt's loyalty and ability to analyze cattle is the best we have had, and we have reaped the benefit of the support and love of his entire family. Thank you, you have all stepped up when we need you the most, your passion for this program is essential for its success.

“Going **MATERNAL** doesn’t sacrifice **GROWTH**. Only way to get good growth is with a *strong, solid, feminine cow*. That’s your bulls. Such a solid program, my friend.” —RYAN MAHONEY: OWNER EMIGH LIVESTOCK, RIO VISTA, CA

Wyatt, Carley, Donald, Larie and Trace

BRUIN FELLOW *sons*

Fellow was our high seller of the 2019 bull sale going to Roberti and Questo Ranches. His first calf crop was the highlight of the 2021 bull sale season with the first sons selling to some of the most progressive herds in the west. These bulls are the front pasture type, commanding attention with their body length, extension, overall depth and muscle shape. Fellow has continued to jump through all the production hoops, producing the type of females the west commands. His first daughters have sons in this sale and have been appreciated by cattlemen from around the globe. His broody females combine perfect udders and teat shape with above average milk and a 102 Nursing ratio. Their excellent motherly instinct and ideal foot shape has us going back to Fellow as a sire for the fifth year in our AI and ET Program. We confidently believe Fellow's story in the Angus breed is just beginning.

A favorite from a young age, Keynote hit us especially hard on weaning day and is worthy of "Lot One." Complete from all angles, Keynote is thick, deep and attractive fronted. His model 10-year-old dam may be his greatest attribute. 3260 is a herd favorite with ideal mature size and body conformation. At 10 she is flawless uddered, attractive fronted and ties it all together with a bold center body and long, level hip. With 3260 and 8616 both still in production and the closest cows on his pedigree, Keynote is a can't miss replacement female sire.

A real eye-catching Fellow with loads of type and character. This calving ease Fellow son has as much natural presence as any we will offer. His dam is a social media sensation from the first time I shared a video of her, garnering likes and shares from around the world. A personal favorite from the class of 2016, 6349 is feminine fronted, big bodied and powerful hip. In production she sports ideal udder structure and teat size.

Bruin 316 Capitalist 8353 • Maternal Brother to Lot 4

As a baby, 2704 was our son Myles' favorite bull calf. Spend some time with Myles and you'll learn the kid has an exceptional eye for balance, quality and power. This larger scaled Fellow is long spined and big hip. Complimenting his phenotype is an EPD profile that is hard to match, his mother is a top young Rainfall daughter.

3 BRUIN 8224 FELLOW 2790

A ¾ brother to Lot 5, tie them together and keep all the replacements. 2745's mother is picture perfect uddered and very easy fleshing. This bull would work well creating replacement females where resources are less dependable, and calves are still expected to perform to modern standards.

BARRICADE *sons*

SITZ BARRICADE 632F • SIRE OF LOTS 7-16

One of the most powerful bulls in the entire Angus population. Barricade is a proven breed changer for body depth, power and hoof quality. Our second offering of sons represents one of the larger opportunities to purchase a Barricade in the country. For our customers who run in the mountains or feed cattle at elevation, he looks to sire progeny who thrive in high altitude. Every mating in this offering was intentionally created to compliment the power of Barricade with a long, elegant fronted female to harness the maternal value of our cows.

Bigger scaled and performance outlined, Kingpin maintains the growth figures of his sire in a more modest birth package. His ultra-feminine dam offers a little different twist to the Blackbird line. 7277 is heavy milking, big bodied, long and pretty fronted. Her first retained daughter is a picture perfect first calf heifer.

In a pen of bulls, Kevlar is easy to spot. Besides bringing striking breed type, he is noticeably docile. While we were trying to score bulls, he allowed Wyatt to scratch him. A full brother, Bruin Jupiter 1792, was purchased to serve as a herd sire for Sackmann Cattle Company, WA. Kevlar's Mother is a maternal sister to Bruin Envy 7248 and a sight to behold.

Three ¾ brothers bred for complimentary. Terms like best-we-have-raised, rugged, ultra-powerful, huge-bodied, loose-hided, and stud fill my notes on these brothers. We are undecided yet, but we still may collect one of these for our own use. In a footnote, it's impossible to separate them and in production their dams are also very similar. Choose from three different female lines or tie them together, these brothers are built for modern beef production and female retention.

Lots 12-13: A pair of big bodied bulls out of our 2074 donor. 2074 embodies that old school "Montana Maternal" look, we used Barricade to bring her a little thickness and performance. The differences between these brothers are highlighted by a recip advantage, I would keep them together to build a consistent set of feeder calves and those broody females we all love.

Comments on this bull say dense and full of muscle. 5005 was a very modest sized cow with the most picture-perfect feet you could draw on one. The Paxton 730P females were some of the most productive females we ever had on the place, they always brought in a huge percentage of their body weight and maintained flesh, true range cows.

Lots 15-16: Knight and Khan are two $\frac{3}{4}$ brothers with a female line straight back to the herd matron 6071. Typical Barricades, these bulls are densely packed full of red meat and body. This pair of bulls are a touch cleaner fronted than their brothers and sport an outlier IMF EPD when considering the stoutness they bring.

HA VALUE ADDED 7578 • SIRE OF LOTS 17-24

We call bulls like these snipers, using them for very specific traits without sacrificing our core beliefs. We used Value Added to add body length and performance to some of our more moderate cows. Consistent, proven and from a high reputation cow herd, the dam of Value Added is the most proven female to come out of the 50 year Hinman program. 3839 is a classically elegant female with length and productivity boasting a 107 NR on her first 3 calves. 3839 is the dam of several major league AI herd sires.

Kickback is an absolute beast, loaded with striking type, muscle, body and width. While his own performance and type set him apart, his outstanding Fellow mother is the model beef cow. 0704 is a gorgeous female. Her pretty head and front third blend smoothly into a deep and massive center body. Udder quality of 0704 is near perfect, and she is off to a roaring start ratioing 107 on her first calf.

Long, deep and powerful sums up this rugged cowman's bull. A ¾ brother in blood to Lot 17, Kickstart is much the same. While we only have two Forager daughters, both are stunners. 0810 brings a little more power and growth to our traditional type and transmitted that same high octane to this son as he dominated the calf crop with a weaning ratio of 117.

A performance outlier and borderline heifer bull for those who have larger framed heifers. 2794 has always been a notch growthier, and stretchier than his contemporaries. His type and performance are a perfect complement for breeders looking to maximize growth.

BRUIN HOLOGRAM 0734 • SIRE OF LOTS 25-33 Our high seller in the 2021 sale selling to Vanderveen Angus in Kansas. We wasted no time in plugging Hologram right into our program. Hologram was the thicker, more powerful son of the flush, combining the best of SAV with our herd favorite Blackbird 4264. His proven sire has excelled for maternal value by leaving problem free, heavy milking daughters who are fertile and easy to be around. Our early analysis is that Hologram will be an easier to use option of the sire line, offering more modest birth weights and one of the most unique cows (4264) in the Angus breed.

Lots 25-27: A flush of brothers out of our 14-year-old donor Bruin 6262 Elba 9217. This set of bulls brings low birth weight predictions with off the charts IMF EPD. The flush sister mates to these bulls are outstanding and we can't wait to get them into production. Big time maternal value in these brothers.

A really cool made bull, linebred to Blackbird 4264. This bull is cocky on the profile being upheaded, level topped, square hipped and deep bodied. I really like him and love the body type of his dam. These Envy daughters are just making their mark and breeding like true Blackbirds, leaving problem free females with perfect udder quality.

A long and level spine with outstanding feet on this Hologram son. His dam, 6249 was always a herd favorite and one of the more moderate cows at our place. This bull will only get better with time, use him and all his brothers to make the kind of females you can go any direction with.

After 14 years, we finally had to ship 9248 after an injury. Those who have toured know she was my favorite Pioneer daughter. In 13 years she raised 11 calves from 11 straws of semen, a testament to the value of fertility and longevity for any operation. We are excited that her legacy will live through her daughters and granddaughters. This son is your opportunity to put the same traits into your operation. Undisputedly maternal.

Raw Power. When evaluating bulls, I make quick notes, things to jog my memory for footnotes. Lot 31 received three stars and I don't give them out often. This bull is long, deep and carries a similar type to his brothers but with more power and pop. From a thick made Resource cow, expect his calves to get their weight from squareness, shape and body length.

One of the cleaner fronted Hologram sons. 2707 blends power with a cool look and ties his neat neck and shoulder into the consistent body length and depth that Hologram brings. His dam, 9212, is absolutely perfect uddered and gorgeous fronted. A ¾ brother to Lot 32.

Lots 34-36: A trio of brothers from the Revolution Genetics and Emigh Livestock herd sire Guardian. These bulls all have a cool look, plenty of shape and a more calving ease profile. We negotiated a deal with Emigh Livestock to use Guardian clean-up on our heifers and were thrilled with the results. We kept many heifer mates to these bulls.

Lots 37-39: A set of cold outcross sire line bulls. Ideal Encore 9524 Lady caught national attention for producing cattle with very light birth weight and exceptional growth. We watched Encore for several years and ultimately his outcross pedigree and elegant dam led us to sample him. These Encore sons are led off by a flush of the only cow we have taken to the limelight in Denver. We tried something new and offered ½ embryo interest and no possession in one of our rising stars (8204), to our surprise she topped the division and went to an incredible program in Vanderveen Angus. This first set of her sons and a grandson are rugged, masculine and powerful beef bulls.

BRUIN HARDCORE 0115
SIRE OF LOTS 42-45

Hardcore is a powerful, masculine high growth son from the Rainfall line. We used him natural service in partnership with Mile High Angus in Utah and the day he was to be collect was unfortunately found dead. There is no semen on Hardcore and this represents the only offering at Bruin Ranch. While there are only 4 sons, they are deep in quality. Lot 42 is one of the most complete bulls in the sale for anyone who can handle some birth weight. We plan to collect one of them before the sale, they are beef bulls and their heifer mates are as good as we can make them.

Eight Flush Brothers! Doing it the old-fashioned way, KG Justified 3023 made his name through use in commercial heifer breeding projects. We only used Justified on one cow and it was through the flush program. 5341 is the sister to Bruin Titanium 6261 and arguably the most powerful cow in our lineup. We hoped to compliment her power and type with the modest birth, milk and marbling of Justified. This set of bulls is younger and from an ET recip herd, they are a bit lighter but hang with them and they will breed true to their pedigrees and program behind them.

A bull with as much potential for commercial heifer breeding programs as we have ever bred. My only comments read "really good." While he doesn't excel in one trait, his combination of traits and body type is exceptional. His dam is one of the good ones, intensely linebred to Blackbird 6071. 0743 is a long and level Torque daughter with a perfect udder and modest mature size. She has two other full sisters who embody the same description, and we expect each of them to write a new chapter in Blackbird history.

A calving ease bull from one of the best Torque daughters we have raised. Not as much power in this bull, which is a good thing with heifer projects! His dam is one of my favorites combining Blackbird 6071 with Eisa Evergreen 2074.

Another 3-star bull on my evaluation sheet! This long and level bull is square hipped and masculine. He is the perfect cow bull for someone wanting to retain heifers. His dam is a ¾ sister to Torque and one of the good young cows on the place, I'd be shocked if she doesn't enter the donor program as a 5-year-old.

The thickest Justify we will offer. This bull is masculine and powerful, he gets that from his maternal grandsire who was one of my favorites to walk here. This bull has never caused us a problem but we gave him a disposition score of two, he needs a little more space.

A set of Revival sons with an upheaved presence and profile that usually produces beautiful females. These first sons are a who's who of our program on the bottom side of their pedigree. One is out of a donor, one a nice calving ease bull and lastly, a meaty cool one that could make heifers to hang a halter on. Two of the three received a 3-star rating, we will let you be the judge of the ones you like best.

Lots 62-65: Four flush brothers straight out of our Embryo herd and bred to solidify Maternal Value. The combination of Torque and Dixie Erica 7357 should yield modern easy fleshing females that still maintain the growth and payweight you have come to expect. We have gone back to using Torque again AI and in Embryo Transfer, his daughters suit us fine and "problem-free" will never go out of style.

The dam to Guidance left here at 17 years old while raising her own AI twin calf. The first Guidance daughters will calve this fall and they are incredible from all angles. Sometimes it's hard to visualize "maternal" in a sire, its more easily revealed in the pedigree. Lot 66 has a great look, body and performance, he ratioed a whopping 112 off a first calf heifer.

FORGIVEN *sons*

Miss Charlo 2074 - Dam of Lots 67-70

Bruin Friction 8231

A page of sons that cross two of our most influential donors and linebreed Great Plains 943G at the same time. This combination of 4264 with 2074 should yield predictable maternal type and function. Both cows are standouts and all these bulls come from the heart of our embryo program. 4 opportunities to purchase full brothers to replacement females who represent the future of the Bruin Ranch.

NEW CUSTOMER SERVICE *Options*

We formed a partnership with Shasta View Genetics to allow us to provide knowledge, coordination and technical support to our customers.

- Genetic Consultation
- Breeding Project Planning
- Commercial Breeding Programs
- Access to Sires from across the country
- Exclusive access to Maternally developed sires at Circle and Bruin Ranches
- AI Breeding Barn Access

Contact Tim or Joe for details!

Circle Ranch

For generations, environmental adaptability has been and continues to be one of the most important breeding goals at Circle Ranch. Cows should work for their owners, not the other way around. We run our cows in a similar fashion to the majority of our customers to help ensure they will work in a variety of environments and promote profitability. **That, too, is part of the reason we harness the power of heterosis to create a more durable genetic product capable of breeding and lasting longer regardless of the environmental challenges posed.** We absolutely have a herd target for mature size that we think best fits the majority of our customers and the larger beef industry. The lions share of our bulls hit that target dead center and many of our customers prefer them. On the edges, however, you will find genetics here that can **produce power house performance** for higher resource situations as well as some lines created **to minimize maintenance requirements for low-input regions.**

From left: Cameron, Austin, Taylor holding Jack, Savannah, Jill and Tim.

CELEBRATING A
proud tradition
OF RANCHING IN THE FOOTHILLS OF
THE SIERRA NEVADAS

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

I'M JUST BUYING A BULL, *Right?*

Most of us don't really believe that, yet the gravity of the decisions associated with selecting the next generation of seed stock may be greater than you first think. All of us consider the calves these bulls might sire and the value they should return to the ranch. Most consider pricing bulls based on a projection of service hopefully of 4 – 8 years barring injury.

LET'S ASSUME YOUR OPERATION PURCHASES 4 BULLS IN THE COMING FALL OF 2023

- First calves born in the fall of 2024.
- First daughters calving in the fall of 2026 (first granddaughters calve in 2028)
- With any luck 2 of these bulls are still breeding at age 6 in 2028.
- Last calves sired by these bulls born in 2029.
- Last crop females have their first calves in 2031 (Their first daughters calve in 2033).
- In the year 2040, there are still a few 11 and 12 year old daughters still in your herd from the bulls you purchased in 2023!

In the year 2040, the granddaughters and great-granddaughters of the bulls purchased 17 years ago still make up a substantial portion of the genetics in your herd!

I know most of us don't like to think of the year 2040. If however your plans to keep or make the beef business an important part of your family's livelihood as far out as 2040, which most of us do, the bulls you purchase this year will impact your operation nearly 20 years from now. Sire selection is that important, so use all the tools available to make the best decisions every time.

CALIFORNIA'S *largest supplier* OF SIMANGUS™ BULLS!

BULL DEVELOPMENT

This is our fifth year developing our bulls at home. Last year we added two additional large pens in a rolling oak woodland area to again assure the bulls have plenty of shade and room to roam. The larger pen sizes gives the bulls a better chance to travel, stay loose jointed, athletic, and better prepared

for turn out day . Our ration which includes nearly 50% haylage from our own irrigated pastures, helps us reach our goal of a slower more consistent rate of gain that we feel extends the years of service of the bulls for our customers. Again on sale day you will notice the bulls that are slightly lighter in

weight and condition but are freer moving and more athletic and will not lose as much weight during the breeding season. Because the bulls are right here at home they are available for viewing any day from May until sale day.

CLARITY IS CASH

\$20+
MORE PER
CARCASS

74lb.
LIGHTER COWS

Today's industry pays big for heavy fat steers, but your pocketbook demands smaller cows. What to do?

The answer is clear, dependable data and the courage to bypass traditional straightbreeding.

Simmental-influenced cows are an average **74 lb. lighter** at maturity than Angus-sired counterparts.^a

Meanwhile, packers pay **\$20 to \$34 more** for SimAngus™ and Simmental-sired steers than English-sired calves.^b

Finally, raise efficient cows and high-performance calves. The proof is in the data – and the cash.

^aUSMARC, Zimmerman, M., et al., "Breed and heterotic effects for mature weight in beef cattle," *J. of Anim. Sci.*, Vol. 99, 2021. Adjusted for sire sampling, Angus was the heaviest at maturity among the 16 breeds evaluated. Solutions are deviations from Angus. YW EPDs were extracted from genetic evaluations conducted in 2019. Estimate of MWT differences at 6 years of age. The study considered 108,857 weight records from 5,156 crossbred cows sired by 787 bulls. ^bEffect of sire breed group on carcass value of feedlot cattle harvested through Tri-County Steer Carcass Futurity Cooperative, Lewis, Iowa, 2002 to 2018. Odde, K. & King, M. (March 2021). Kansas State University. Relationships Among Sire-Breed Group, Calf Sex and Year Group on Carcass Traits. Breeds represented in the English-sired group: Angus, Red Angus, South Devon, Hereford and Shorthorn.

Making a Difference in the Beef Business - EVERY DAY

RIGHTMATE AND RIGHTCHOICE

Precision mating solutions for the beef industry.

Dr. Mahdi Saatchi, Marty Ropp and Tom Hook

TOP GENOMICS Novel genomic technology solutions to make better beef cattle.

Dr. Mahdi Saatchi

FUTURE FOCUSED COMMERCIAL GENETIC CONSULTING

Long term solutions for profit focused commercial producers.
