## Writing

Writing starts with an outline. List the points that you want to make in order of importance & cover each point fully & individually. The lead should be ?style. It will convey vital information about what's following, in the shortest & simplest way. A lead needs to persuade the reader to continue reading. The main-body of your writing needs to be simple & concise. Opinions must be active & personal. Edit!

## Plagiarize

Why rewrite something that is well written. Rather use it & expand on it. Re-writing is time wasting & not in the best interest of broadening the mind. A good piece of writing should be cherished not be mutilated by rewriting. Reading a good piece of writing encourages the mind to lift one's intellect to the high standard of the original. Stopping this thinking to concentrate on rewriting is mediocre education.
