

FOURTH GRADE

Summer Reading and Math Practice

Incoming Fourth Graders

Reading

Please read **THREE** books of your choice and list them on the Summer Reading log (included). Students may take an SRC test on **ONE** of the books for your 1st Quarter goal but the book **MUST be within your current lexile range.**

To help you determine the lexile of a book, follow the link below.

Assignment (due the 1st week of school)

Critical Thinking Bag Book Report

1. You will need a lunch bag (or any other color).
2. On the front side you are going to write the title, and author, your name. Include a drawing from your favorite scene or favorite character.
3. On the back, list the characters and 3 adjectives (describing words) for each of them.
4. Below the character list, write a short summary of the book (one paragraph minimum).
5. In the bag, place three objects that relate to the story.

After you finish your books and assignment, KEEP READING!!! This will help you continue to grow in fluency, vocabulary, and all subject areas!

Math

Please practice your multiplication and division facts at least 3 times a week for 10 minutes a day. You may use traditional flashcards, flashcard or game apps, and online games. Below is a list of websites that have great resources. When you have mastered your tables or if you already have, keep practicing unfamiliar skills or any you find challenging. The more practice, the better! ☺
