

## **Laura Hedges**

I was born and raised in northern B. C. in the small town of Houston, but now reside in Ashcroft. I came from a family of artists and to my delight found myself immersed in a range of art forms at a young age. At 10 I started selling my work to my classmates at school for a \$1.00 apiece. Since then I have worked in modeling clay, wire jewelry and soap. My one long time love has been painting and my medium is acrylic. I love trying to bring people a feeling when they look at a painting and show them things through my eyes. I am inspired by the world around me: The mountains I see, wildlife, my children, my animals and so much more
