

Melissa Price

Melissa Price received her Bachelor of Science in Business Administration and Masters in Accounting from the University of North Carolina at Chapel Hill in 2006 and 2007 respectively. She is a Certified Public Accountant and has worked in a variety of tax management roles for Deloitte, Bank of America, and now BDO. She is pleased to lend her financial skills to the Foundation board. Outside of work, she has been an active member of Junior League for over 10 years.

As a working mom of two small children under the age of four, Melissa knows the importance of early childhood development. “To be able to help serve my community by being on this Board is important to me to make sure there is additional funding to support the many programs and resources Project Enlightenment offers to a variety of families and areas in Wake County. I strongly believe in the mission of Project Enlightenment and want to see all children, parents and teachers succeed”.

Melissa joined the Foundation board in June of 2023.
