Use the Read-Draw-Write process to solve the problem.

1. A tree farm has 15 rows of trees. Each row has the same number of trees. If there is a total of 1,635 trees, how many trees are in each row?

Use the Read-Draw-Write process to solve the problem.
2. Lacy plans to ride her bike 2,900 miles, which is about the distance from San Francisco to New York. If she rides 68 miles each week, how many weeks will it take Lacy to ride 2,900 miles?
