ERIC GOOCHEY

I was born and raised in Johnstown, Nebraska. After attending college, I moved back home and began farming with my Dad in 2002. I am married and I have 2 sons and 1 daughter, and my family is my number one priority. They are always eager to help with the farming and love to see the seed shipped in and out.

As a customer of AgSource, and eventually NuTech Seed, Jason Stark convinced me in 2008 to join the sales team at NuTech Seed. I enjoy being part of the NuTech Seed team because it feels like family to me, because we all have the same goals. My business has grown each year due to personal relationships with my customers and the outstanding genetics offered by NuTech Seed. As our company continues to grow, I am striving to grow with it.

I am honored to be chosen for the Most Valuable Dealer 2016 award.
