Actions Speak Louder than Words

Join the CJ's gang and help change lives. In cooperation with other local businesses and with a whole lot of help from the public, CJ's founded and sponsors an annual benefit called Friends Helping Friends. While we have participated in raising funds for non profit organizations such as the Cystic Fibrosis Foundation, American Cancer Society Relay for Life, and the American Heart Association in past years, we are now also reaching out to help those that need it most...our family members and friends right within our own community.
