The weather seems to be a topic that everyone is talking about with the ups and downs, record highs, and near lows. How about the last week when our high temp of 75 was met that night with a low of 12 with wind chills well below 0 degrees. Quite a swing in comfort level!

Our coffee in February was held at Tres Café with nine members attending. Thanks to everyone that attended. Thanks to Cheryl for coming to spend the evening meal with us as well as Dennis from IA-O.

We met at our new location for our gathering this month, Side Trax, at 441 East Main in Galesburg. The food was good and they offered a wide variety of choices. We had good service for the evening with a quiet atmosphere to carry on conversations.

It was good to see Ken and Donna back with us for the evening. Ron continues recovering from his fall. Hope all goes well and he is back to 100% soon. IA-O members, Donna, Tom, and Dennis were also in attendance. Thanks for taking the time to join us for the evening.

We are eagerly awaiting the return of our "snowbirds" to join us at the meetings and tell us of their adventures. We hope they have been well and rested during their stay in the warm south.

I know some have had their bikes out already this spring. As we begin a new season of riding, remember to ease back into the first rides. Reacquaint yourself with the controls, cornering, stopping, etc. Take whatever time you may need to polish the "rust" off of our reactions, etc. getting ready for that first longer ride. As the weather warms to riding conditions, watch your email and H-2 Facebook for spontaneous rides. If you decide to go for a ride, let others know if you would like them to join you for the ride.

## Safe Riding Tips

Changing lifestyles in the United States are clearly identified in the changing population on the highways. Although the automobile remains the king of the road, many other highway vehicles are taking their place in traffic. Many of the young new motorcycle riders feel the need for speed. This coupled with inexperience can lend itself to unsafe riding and potential accidents.

The challenge presented with the increasing number of motorcycles is the large number of new motorcycle riders and even more automobile drivers who do not understand how to mix in traffic. The lack of knowledge and skill sets on how to share the roadway was pointed out in a University of Southern California in-depth research study of 900 motorcycle crashes, with analysis on additional 3,600 crashes. Approximately three-quarters of the crashes studied involved a motorcycle colliding with another vehicle. In two-thirds of the crashes, the other vehicle violated the motorcyclist's right-of-way. Considering the crash statistics and the increasing number of motorcyclists, the key to a safer traffic mix is understanding and learning to share the roadway.

Understand the difference between driving and riding. Be sure to always wear protective gear; helmet manufactured to meet DOT standards, eye protection, over-the-ankle boots, full-finger gloves, long-sleeved shirt, and long pants, preferably with protective body armor.

Always use turn signals, check to ensure lights are functional, allow a safe distance when following fellow riders, understand drivers' blind spots and be aware of your own potential blind spots, be aware of potential road hazards, understanding that minor problems for four-wheeled vehicles can be major problems for two-wheeled (and three-wheeled) motorcycles. Perfecting the necessary skills is critical for survival and spending 5 hours on the range (ERC course time) to ensure one's safety is by no means an imposition to a day that would have been devoted to riding, anyway.

Have a great trip and as always, keep both (or three) wheels on the road.
