

Dear Revamp Clients and Friends,

Goodbye summer. Hello fall. Now more than ever is the time of year to Revamp your wardrobe!

This week I had to unpack from my summer vacation and it was the perfect time for me to organize my closet for fall. Once the summer clothes were put away and my fall clothes were front and center, I could see clearly what I wanted to add to my wardrobe. I am suggesting that all of my clients do the same to get in touch with what is in their closets for the fall months ahead. Take a moment to assess what you have and what needs to be retired, and then you can start with a clean slate.

There are many fashion forward items being focused on this fall, liked cuffed jeans and chunky textured sweaters, but remember to make sure you have your essentials first as they are what you live in. Sometimes adding items means replacing a staple. For example, everyone's closet should have a pair of water resistant or water proof boots that look good enough to wear all day. These tend not to last forever, but may not be at the top of your list as an exciting new item to add to your wardrobe. For me, they are an important staple. What are some of your "go to" items? A great trench coat? The perfect black cocktail dress? The tried-and-true leather jacket that goes with a pair of pants or a skirt? What condition are your favorite basics in?

It is a great time of year to get organized and feel fresh, so take a moment to review and Revamp!

Happy fall!

Warmly,
Beth
