STORM Shelter & SIREN Policy

Moran's warning sirens are audibly tested each day at noon, weather permitting. On Tuesdays at noon Allen County 911 tests the sirens for 30 seconds to ensure the warning system is working correctly. Moran has two above ground storm shelters;

one is located behind City Hall with the second located at the City Park. On occasion, technicians may test individual sirens at random times. In the event a tornado warning is declared for Allen County sirens are sounded for three continuous minutes with a 10 second pause between each alert. Additionally, the Moran Fire Department may use the sirens to alert volunteer firemen when fire calls are received.

Sirens are sounded as follows

- **DAILY**—all sirens sounded for 10 seconds at noon Monday through Friday
- **TORNADO**—sirens sound continually for 3 minutes with a 10 second pause between sirens.
- **CITY FIRE**—sirens sound once for 10 seconds
- **RURAL FIRE**—sirens sound twice for 10 seconds each
