

Transformation of the 8th Chakra-karma setting the soul free to do its life purpose

The conflicts in a persons life are directly comparable to the distance of which energy of the self identity exists separately from the harmonic frequencies that are in our field.

In this class you will practice and learn tools on how to successfully open the 8th chakra, release the power struggle of the reason of the mind and transform the karma and open up the heart into emotion while finding the souls life purpose.

No prior experience needed, just an open mind and heart.

Facilitated by Kristi Lopez
